## Staying safe when travelling

NATIONAL restrictions to combat the spread of the coronavirus mean everyone must stay at home unless they have a reasonable excuse. Public transport can still be used for such journeys. Londoners should consider using the city's network of safe walking or cycling routes instead.

Customers should use TfL's travel tools to plan journeys by public transport during the quieter times. These are between 8.15am and 4pm and after 5.30pm on weekdays, and before midday and after 6pm on weekends.

Hospital-grade cleaning substances are being used on trains, trams, buses and at stations, and customers should carry hand sanitiser with them so they can clean their hands before and after their journey.

Extensive signage is in place, reminding customers to maintain social distancing. TfL's enforcement officers and the police are enforcing the requirement for everyone to wear a face covering over their nose and mouth while in a station or travelling on public transport, unless they are exempt.
