## Guide to learning the Knowledge of London

### Suburban Drivers Edition

## **Important**

This booklet is intended for those who have applied to become licensed suburban taxi drivers in London and whose application has been accepted. It supplements the initial talk given by a Knowledge of London Examiner before you start learning the 'Knowledge'.

If you have not already successfully applied to become licensed you should first read the booklet entitled 'Becoming a Licensed Taxi Driver in London - A Guide for Applicants'.

## **The 'Knowledge of London'**

This book is aimed at helping you to gain the necessary knowledge of London to enable you to qualify as a Suburban cab driver, and also tells you about the Public Carriage Office (PCO) driving test.

In reading this booklet, you may find it helpful to understand some 'Knowledge' terminology.

The 'Knowledge' or 'Knowledge of London' is the process of learning the topography of London, that is the layout, streets and features of the capital.

The PCO is the Public Carriage Office, a branch of Transport for London.

The Blue Book (Suburban Edition) is the guide to learning the 'Suburban Knowledge'.

A 'sector' is the area in which you are licensed to ply for hire.

'Runs' are routes between two specified points.

'Points' are where cab journeys start and finish.

An 'appearance' is an appointment at the PCO to be examined on your knowledge of London.

## **The equipment you need to learn the 'Knowledge'**

This Guide to learning the 'Knowledge of London', has become known as the 'Blue Book' and provides the basis from which you work.

You will also require large scale maps relevant to your sector.

Finally, you need a call-over partner; that is someone to put questions to you in the way the examiners will. Helpful as your members of family or friends might be, if they have not done or are not doing the Knowledge they are of limited use. Most people on the Knowledge come to realise how important it is to have a call-over partner.

## **What you need to know about London**

In Annex B there are 30 'runs' for each sector. You should learn in detail, the runs for the sector for which you have applied to be licensed, as described below.

To achieve the required standard to be licensed as a suburban cab driver you will need a thorough knowledge of your sector. You need to know:- all the streets, blocks of flats and offices; government offices and departments; diplomatic premises; town halls; registry offices; hospitals; places of worship;

The Licensing Authority encourages licensed taxi drivers in London to dress in a manner which reflects favourably upon their profession. In seeking to become licensed you are, therefore, expected to present a clean and smart appearance when attending the Public Carriage Office.

Bring a passport-size photograph of yourself on your first appearance.

Your first appearance will last about 30 minutes, subsequent appearances about 15 minutes. Do not waste too much time trying to remember the answer to the questions; if you do not know the answer, say so.

REMEMBER, THE BLUE BOOK IS JUST A **GUIDE** AND THE QUESTIONS YOU WILL BE ASKED WILL NOT NECESSARILY BE PRECISELY THE SAME.

### Knowledge of Central London

When you have shown that you have a satisfactory knowledge of your sector you will be examined in, and will have to show that you have a good working knowledge of Central London. You will have to show that you can get from your sector to important places in central London and to Heathrow and London City Airport.

### The Driving Test

Candidates must attend the Public Carriage Office in a licensed taxi cab which is wheelchair accessible.

He/she must present:

- proof of payment of the test fee;
- a current full DVLA driver's licence;
- a letter from the vehicle owner giving permission for the cab to be used for the test;
- a certificate of insurance stating that the candidate is insured to take the MHC test in that vehicle that day;
- an up to date passport-sized photograph.

During the test the candidate will be expected to demonstrate his/her ability to:

- read a vehicle number plate at the distance specified in the Highway Code (i.e., currently 20.5 metres [67 feet]);

- reverse the vehicle around a left-hand and a right-hand turn and straighten up in a roadway approximately 9 feet wide;
- turn the vehicle around to face the opposite direction making no more than three movements without touching the kerbs in a roadway approximately 18 feet wide;
- load an unfolded, unweighted, wheelchair (which will be provided) into the passenger compartment using the equipment supplied by the vehicle manufacturer and use any passenger securing devices/seatbelts, etc.
- Use any other facilities fitted to the vehicle for the benefit for those with disabilities, e.g.; intermediate step, swivel seat.

During a drive lasting approximately 30 minute on the public highway the candidates will be expected to:

- deal with all traffic conditions in a safe and competent manner showing particular regard for the safety and comfort of passengers and other road users;
- demonstrate his/her ability to stop safely on a gradient and safely pull away and-rejoin the traffic stream (this is to simulate picking up or setting down a passenger in difficult conditions);
- complete left and right-hand turns using mirrors and signals and to position the vehicle correctly on the road (special attention will be given to anticipation, vehicle positioning and lane discipline, especially when joining or leaving traffic systems);
- observe traffic signs, road markings and speed restriction.

The candidate will be required to demonstrate a sound knowledge of:

- the Highway Code (including motorway driving);
- taxi regulations, including,
  - taximeter sealing regulations and use of the meter, positioning of the insurance certificate, fire extinguisher and fuel cut-off switch, procedures and regulations relating to cab drivers' licenses;
- taxi drivers' responsibilities regarding the Disability Discrimination Act 1995.

If a candidate is successful at the driving test **and** has past the Knowledge of London test, a pass certificate will be issued which may be taken to the Public Carriage Office where the driver's licence and badge will be issued.

If a candidate is successful at the driving test but has **not** passed the Knowledge of London test, the pass certificate will be retained on the driver's file until such time as the Knowledge of London test has been successfully completed.

If the candidate fails the driving test he/she will be given a notice indicating the aspects of their driving which will require further tuition or improvement. A second test may be requested but must not be less than 14 days after the first test. The interval between any further driving tests will be at least 28 days. A fourth, or any subsequent, test may only be taken after the examiner is satisfied that the candidate has had sufficient driving practice and tuition. As far as is practicable, a different examiner will conduct each of the candidate's tests. **All driving tests and re-tests require payment of the driving test fee.**

### Finally

Remember. . .

. . .if you are charged with, convicted of, or cautioned for any offence any time,

or

. . .if you change your address,

or

. . .if you develop a medical problem which may affect your ability to drive vocationally (or you are prescribed medication which is not compatible with vocational driving),

you must notify the Public Carriage Office Immediately. If in doubt about whether you need to notify the PCO - ask.

## Annex A

Setting out a Route and the important places adjacent to it

**Example of how to set out a route when you are preparing to learn the 'Knowledge of London'.**

(Note: This example applies to the all London Knowledge but the principle is the same for the suburbs).

Firstly use your map in conjunction with each run in this book, for your chosen sector, to decide which is the shortest route between the two points and listed as shown below, using the conventions R for right, L for left, F for forward, etc.

**Public Carriage Office to British Museum:**

Leave on R	Penton Street
F	Claremont Square
F	Amwell Street
R	Margery Street
F	Calthorpe Street
F	Guilford Street
Comply	Russell Square
Leave by	Montague Street
R	Great Russell Street

Set down on right

You should then travel the route you have worked out, noting (and remembering) the places of interest at the start, along and at the end of the route.

The following pages list **some** of the places of interest to be found on this route. This illustrates the level of detail required on each run.
