Translation of the Minutes of the
Meeting of the
Council of Supervision
in Paris.

Meeting
of 13th Sept 1856.
Present Messrs Dubou, President
Vaccossin, Secretary
Comte de Saintivy
Mazgind,
Lainel,
Larivet, Gerant.

The meeting opened at 10 a.m.
The Secretary read minutes of
the last meeting which were accepted.

The Gerant read a letter from
his London colleagues, in the terms of which the latter
announced that for the reasons set forth in the said
letter they are not disposed to become partners to
the Company in course of formation for working
the Thames Steam boats. In consequence of that
resolution the Gerant suggested to the Council to
pass on to the business of the day without
regard to the question of the boats postponed at
the last meeting. The "agenda" was adopted. A
member enquired of the Gerant if he had received
advice since the last meeting of the Council of
the delivery of any additional omnibuses and the
introduction of indicators.

The Gerant replied that since
last meeting only one vehicle had been added
to the n^o of omnibuses running and that he had
received no explanation on this subject any more
than on that of the indicators.

The Gerant's reply not appearing
satisfactory the same member moved the following
resolution: The Council of Supervision partly concerned
for the services with which the deliveries of omnibuses
have been affected from the commencement especially
during the last two months in exercise of the rights

Le Gérant donne lecture d'une lettre qui lui a été adressée de Londres en réponse à la notification de la délibération prise par le Conseil dans la dernière séance. Les Gérants de Londres ont la ferme espoir que dans le courant de la semaine les honoraires d'adhésion atteindront le chiffre de près de 500.

Une discussion à laquelle prennent part les membres du conseil s'engage sur les considérations qui sont contenues dans cette lettre et il est décidé à l'unanimité qu'il n'y a lieu de suivre sur la délibération qui a été précédemment prise.

En conséquence le conseil à l'unanimité désigne M. M. Vacossin et L. de Lanthoy à l'effet de se rendre à Londres s'il y a lieu pour étudier les questions posées dans la proposition soumise au conseil et acceptée par lui dans sa dernière séance.

M. M. Vacossin et L. de Lanthoy déclarent accepter ces fonctions et être prêts à partir le jour qui sera ultérieurement fixé.

La séance est levée à 11 h et 1/2. Le procès verbal est signé par le Président et le secrétaire après lecture.

The Gerant read a letter addressed to him from London in reply to the notification conveyed by the minute of the last meeting of the Council. The London Gerants entertain a well grounded hope that in the course of the week the deliveries of umbrellas will reach the number of 550.

A discussion in which the members of the Council both part-cused upon the considerations involved in this letter and it was unanimously Resolved, That there is occasion to follow up the resolution previously passed.

The Council accordingly unanimously designated Messrs. Vacossin and the Comptroller the Sanitary to proceed to London, if required, to study the question raised in the resolution moved and adopted by the Council at its last meeting.

Messrs. Vacossin and the Comptroller declared their acceptance of the office bestowed and signified their readiness to start on the day that might be appointed.

The meeting broke up at 11.30 & the minutes, after being read were signed by the President & Secretary.

Meeting of the 30th September 1886.

Present - Messrs. Dubois - President
Vacossin, Secretary
Comptroller Sanitary,
Marpion.

The meeting opened at 10 o'clock.
The Secretary read minutes of last meeting which were adopted.

The Gerant stated he could not yet make his report upon the general statement of accounts of the Company to 30th June last; that

des dépenses est incomplet qu'il a signalé
à ses collègues de Londres plusieurs lacunes
et qu'il attend des explications indispensables
pour faire un rapport complet.

Il annonce que 573 voitures circulent
actuellement pour le compte de la
Compagnie qu'il y a des lors une augmentation
minime, il est vrai dans le nombre des voitures.

Le Conseil témoigne le regret de ne
pas constater une circulation plus considérable
et attend l'état de service de la prochaine
semaine pour fixer le jour de départ des membres
délégés.

Le Gérant répond que M. Willing
l'un de ses collègues est en ce moment absent
de Londres et que M. Church Secrétaire de
la Compagnie à Londres se dispose à venir à
Paris qu'il y a peut-être des lors opportunité pour
les membres délégués à différer leur départ jusqu'au
retour de M. Willing et à la venue de M. Church.

Le Gérant fait communiquer au Conseil
l'état de la Caisse au 24 Septembre.

Un membre demande si aux termes des
statuts les fonds disponibles sont employés en
report sur les rentes françaises ou les fonds anglais.
Le Conseil tout entier s'associe à cette demande
et décide que les membres délégués auront la
mission d'examiner cette question et d'en conférer
avec les Gérants de Londres.

La séance est levée à midi et
le procès verbal est signé par le Président et
le Secrétaire après lecture.

the statement of expenditure was incomplete, that he had pointed out to his colleagues several discrepancies and that he awaited explanation which were indispensable for a perfect report.

He announced that 543 vehicles were in circulation at the present moment on account of the Company; that there is therefore a slight increase in the number of omnibuses. The Council expressed regret at observing ~~that~~ the circulation was not greater and awaited only the statement of working for the following week in order to fix the day of departure of the delegate members.

The Gerant replied that M. Wellings, one of his colleagues was at the moment absent from London and that M. Church, the London Secretary of the Company, proposed coming to Paris, that it was therefore perhaps expedient for the delegate members to defer their departure until M. Wellings return and M. Church's arrival.

The Gerant communicated to the Council the Banking Statement to 24th September.

A member enquired if in the terms of the statutes the funds at disposal were invested in French "rentes" or English funds. The entire Council united in the enquiry and Resolved, that the delegate members should be commissioned to examine into this matter and confer thereon with the London Gerant.

The meeting broke up at noon and the minutes after being read were signed by the president & secretary.

La séance est ouverte à dix heures.

Le Secrétaire donne lecture du procès-verbal de la dernière séance lequel est adopté.

Le Gerant dit qu'il n'a reçu aucune réponse de Londres relativement aux lacunes qu'il a signalées dans l'état de l'exercice finissant en 30 juin dernier que ce fait provient uniquement de l'absence momentanée de M. Walling et de M. Church que dès lors il ajourne la lecture de son rapport sur le dit état à une autre séance.

M. annonce que 348 omnibus circulent pour le compte de la Compagnie.

Le Conseil voit avec regret une augmentation aussi minime sur la précédente somme et avec le désir que les membres délégués se rendent à Londres pour remplir leur mission.

Le Gerant répond que M. Casade Poncy l'un des membres du Conseil résidant à Londres se propose d'assister à la prochaine séance et de donner des explications sur les points qui préoccupent le Conseil à cet égard, mais que les membres désirent ajourner au départ jusqu'après la prochaine séance.

Le Conseil prenant en considération la demande de M. Casade Poncy s'ajourne au Vendredi 16 Octobre.

La séance est levée à midi et le procès-verbal est signé par le président et le Secrétaire après lecture.

The meeting opened at 10 o'clock.
The Secretary read minutes of last meeting
which were approved.

The Girant stated he had not yet
received any reply from London respecting the
discrepancies he had pointed out in the
statement for the period ending 30th June last;
that this circumstance was solely attributable
to the temporary absence of Mr. Willing and
Mr. Church, that he would therefore defer reading
his report till a future meeting.

He announced that 340 omnibuses
were at work on the Company's account.

The Council purchased with regret so
small an increase upon the previous week
and expressed a desire that the ^{delegates} members should
repair to London to fulfil their mission.

The Girant replied that Sir Casack
Roucy, one of the members of the Council residing
in London proposed assisting at the next meeting
for the purpose of affording explanation on
points which so justly caused anxiety to the Council
and urged the members to postpone the departure
until after the next meeting.

The Council taking into consideration
Sir Casack Roucy's request adjourned until Friday

M. le Président résume cette discussion et après avoir recueilli l'avis de tous les membres il déclare que rien de sérieux n'a pu excuser les lenteurs reprochées dans la livraison des voitures.

Un membre demande si les cadres compteurs sont en fait appliqués ou pris de lèche et si les correspondances sont établies. Le Secrétaire donne lecture d'une lettre qui lui a été écrite à cet effet par ses collègues de Londres. Une discussion s'engage sur les termes de cette correspondance. Le même membre propose de confier à M. Roncy le mandat d'admettre diverses questions qu'il se propose de déterminer à la prochaine séance. The meeting opened at 10 o'clock
The Secretary read minutes of last
meeting which were adopted.

In pursuance of the minute passed
at last meeting the President accorded a hearing
to Sir P. Roney who desired to give some explanation
of the delay in the delivery of omnibuses.

A discussion ensued on this subject
in which all the members present took part. The
President summed up the observations and having
taken the opinions of the different members declared
that there was no valuable excuse for the delay
complained of in the delivery of the
vehicles.

A member enquired if the indicators
were yet in operation, ^{or about to be put} and if the correspondences were
established. The General read a letter which
had been addressed to him on this subject
by his London colleagues. A discussion ensued
on the contents of that letter. The same
member proposed to entrust to Sir C. P. Roney
the task of settling various questions which
he proposed to define at the next meeting.
The spirit of this resolution was unanimously
adopted by the Council which adjourned to
Monday 13th October in order to specify accurately
the commission above referred to.

La séance est ouverte à dix heures.

Le secrétaire donne lecture du procès-verbal de la dernière séance lequel est adopté.

Un membre rappelle que dans la séance précédente le Conseil avait approuvé le départ pour Londres de deux membres délégués à cause de l'arrivée prochaine de Sir C. P. Roney. Aujourd'hui après avoir entendu Sir C. P. Roney et recueilli ses impressions sur les divers points qui préoccupent le conseil, il pense que le Conseil pourrait utilement confier à cet honorable membre qui retourne à Londres le soin de préparer la mission dont sont chargés les deux membres délégués tout en maintenant le principe de cette mission dans les termes des délibérations précédentes.

Il propose en conséquence au Conseil de déléguer à Sir C. P. Roney tous pouvoirs nécessaires à l'effet.

1^o de rechercher la cause des lenteurs apportées dans la mise en circulation des voitures - dans l'établissement des compteurs dans l'organisation des correspondances et dans le retournement des papiers.

2^o de constater avec précision les obstacles qui s'opposent encore à la réalisation de ces mesures qui doivent assurer à la Compagnie une augmentation sensible dans ses recettes.

3^o de rechercher pourquoi les fonds disponibles ne sont pas placés aux emplois de manière à produire intérêt.

4^o enfin de constater tout ce qui a été fait jusqu'ici pour centraliser les services et réaliser par la suppression des doubles emplois dans le personnel et dans le matériel les économies promises dans le prospectus.

Le Conseil après discussion adopte la proposition et Sir C. P. Roney ayant déclaré s'être prêt à accepter la mission proposée le Conseil délègue à Sir C. P. Roney tous pouvoirs nécessaires à l'effet de provoquer et recueillir par les moyens qu'il jugera convenables tous

The meeting opened at 10 o'clock.
The secretary read minute of last meeting which were adopted.

A member reminded the meeting that at the last sitting the Council had deplored the departure in London of the two delegated members on account of the expected arrival of Sir C. P. Roney. Having now heard Sir C. Roney and gathered his views on the various points which engage the attention of the Council he thought the Council might with propriety entrust to that gentleman who was on the point of returning to London the task of preparing the mission with which the two delegated members were charged whilst maintaining the spirit of that mission in the terms of preceding minutes.

He therefore suggested to the meeting to delegate to Sir C. Roney all powers requisite.

1st To ascertain ^{velocity} the cause of the delay in putting to work in establishing correspondences and revising routes.

2nd To ascertain precisely the nature of the obstacles yet opposing the adoption of those measures which must ensure to the Company a sensible augmentation of receipts.

3rd To enquire why the funds at disposal are not invested or employed in a manner to produce interest.

4th Finally to learn what has hitherto been done towards centralising the working and effecting those savings by the suppression of duplicate services of staff & stock which are held out in the prospectus.

The Council having discussed the proposal resolved to adopt the same and Sir Casack Roney having signified his readiness to accept the proposed mission the Council formally delegated to the said Sir Casack Roney full powers to demand and obtain by what-soever means he may deem advisable information and explanations of a nature to enlighten the Council on the points referred to in the resolution adopted and he was requested

indiqués dans la proposition adoptée et le
charge d'en faire un rapport écrit.

Le Gérant propose au Conseil
de faire introduire dans son sein M.
Orsi représentant de M. Arnaut promoteur
de la Société des bateaux à vapeur de la
Tamise.

M. Orsi est introduit et expose
au Conseil le but de la Société ses chances
d'exploitation et son système d'administration.

Après cette exposition le Gérant
rappelle au Conseil les ouvertures faites à
la Compagnie au sujet des bateaux à vapeur
de la Tamise par les personnes qui forment
une société dans le but d'en organiser l'exploitation.
Le moment est venu suivant lui, de prendre
parti à cet égard. Personnellement le Gérant
de Paris a exprimé son opinion dans une
lettre adressée à ses collègues de Londres
et dont lecture a été faite au Conseil. Il
persiste dans son opinion et pense qu'il
est utile pour procurer toute concourance
de faire concourir la Compagnie des Omnibus
de Londres à l'organisation de la Société des
paquebots et l'acceptation de deux ou trois
places dans le Conseil de Surveillance.

Le Conseil après avoir entendu
plusieurs membres dans leurs observations estime
que les intentions énoncées par le Gérant sont
conformes aux intérêts de la Compagnie et
décide qu'un extrait du procès-verbal sera
envoyé à Londres pour constater son approbation
sauf à statuer ultérieurement sur la forme
dans laquelle le concours de la Compagnie
sera donné, étant bien entendu dès à présent

The Gerant proposed to the Council to introduce Mr. Orsi's representation of Mr. Armand the promoter of the Thames Steam Boat Company.

Mr. Orsi was introduced and explained to the Council the object of the company its prospect of working and system of administration.

After this explanation, the Gerant reminded the Council of the overtures made to the company on the subject of the Thames Steam boats by the persons engaged in forming a company with the object of organising them working. The moment, he remarked, had arrived for taking part in that movement. So far as he personally was concerned, the Paris Gerant has expressed his views in a letter addressed to his London colleagues which had been read to the Council. He persevered in those views and felt convinced it was expedient in order to forestall opposition to let the London Omnibus Company cooperate with the Steam boat Company and accept two or three memberships in the Council of Supervision of the latter.

Having listened to the observations of several members the Council was of opinion that the views expressed by the Gerant were conformable to the interests of the Company and it was Resolved, that an extract from the minutes should be forwarded to London in evidence of its approval reserving for consideration on a future occasion the question of the mode in which the cooperation of the Company shall be afforded; it being clearly understood from the present time that in conformity with what has just been announced in its name the Steamboat Company shall receive into its Council of Supervision members of the Council of Supervision of the London Omnibus Company and one of its Gerants.

The Secretary read minutes of last meeting which were adopted.

The President intimated to M^r. Vaccsin that he might inform the Council of the results of his journey.

This member in the name both of the Comte de Lantivy and himself expressed the great satisfaction he had experienced from the cordial reception accorded to the delegated members of the Paris Council both by the members residing in London and the Secretaries of the Company. They had various meetings at the seat of the administration and the most cordial understanding had prevailed on all his questions which engaged their attention. As to the Secretaries they had with the most laudable readiness placed themselves at the service of the delegated members both in regard to the examinations of acts of internal management & the out door visitations of the establishments and the working and while on this subject M^r. Vaccsin reported the good and excellent condition of the establishment directed by M^r. M^r. Namand personally. He proposed before passing to a consideration of the details of his experience that a vote of thanks should be passed to the members of the London Council for the gracious reception they had accorded to the delegated members and that the Secretaries should be congratulated upon their excellent administration and in particular M^r. M^r. Namand over his Establishment at Whitechapel.

The Council unanimously adopted this proposal, voted sincere thanks to their London Colleagues and congratulations to M^r. M^r. Namand & Willingby Resolved that these unanimous sentiments should be

sont consignés au Procès-Verbal.

Et l'accuse aux comptes des observations que lui ont faites les honoraires aux quels il s'est livré concurremment avec M. le Comte de Sautais.

Il dit que les fonds restant libres en compte de la Compagnie sur des primes au London & County Bank et à la Banque d'Indes, que le compte audité de la compagnie est beaucoup plus élevé dans la première banque qui dans la seconde, par dans son opinion il paraît convenable d'épurer les comptes dans les deux banques. - - - En Monsieur demande sur la constitution de ces deux établissements, quelques explications, aux quels il est répondu par le rapporteur.

Le Conseil lui a vu que sans mise aux intérêts de la Compagnie, et sans que la responsabilité des directeurs de ces établissements financiers, les comptes de la compagnie soient équilibrés plus l'opinion de M. Tacchini.

Il dit que les témoins ont fait construire quelques cadres compteurs, que 20 de ces appareils sont très prochainement livrés à la compagnie et établis aux ordres, que ce nombre s'accroîtra tous les jours.

Le Conseil reçoit avec satisfaction cette communication et exprime le désir de voir les témoins pourvus sans délai, l'application de ces appareils indispensables à la perception exacte de la recette.

M. le rapporteur rend compte d'une délibération qui a été prise à Londres.

Il dit que sur la proposition du Conseil, les témoins sont convenus qu'à l'avenir, tous les contrats et marchés relatifs aux fournitures et aux acquisitions d'une importance au dehors des opérations de détail ne soient définitivement conclus si ce n'est après communication donnée préalablement au conseil.

Le conseil lui-même approuve cette délibération de ses collègues et décide que tous appartenant. Sont consignés au procès-verbal.

M. Tacchini ajoute que des ordres

incorporated in the minutes.

Mr Vaccassio recited the observations suggested by the proceedings he had undertaken in conjunction with the Count de Santony.

He stated that the funds at disposal on the Company's account are deposited at the London & County Bank and the Bank of London; that the Credit account of the Company is much higher at the first named Bank than at the latter - that in his opinion it would be desirable to divide equally accounts in the 2 Banks. . . . A Member asked some explanation on the constitution of these two Establishments to which the reporter replied.

The Council expressed a hope that without injury to the interests of the Company or hurting the susceptibility of the directors of these financial Establishments the Accounts of the Company might be equally divided in accordance with the opinion of Mr. Vaccassio.

He stated that the Serants had had some Indicators made; that 20 of these instruments would be shortly delivered to the Company and affixed to the Vehicles and the number would daily increase.

The Council received his communication with satisfaction and expressed a desire to see the Serants pursue without intermission the application of these instruments so indispensable for the verification of the earnings.

The reporter gave an account of a resolution passed in London.

He stated that on the proposal of the Council the Serants had agreed that for the future all Contracts and Agreements relating to supply or acquisition of any importance exceeding that of a detail operation shall not be finally entered into unless a communication has been previously made to the Council.

The entire Council approved of this resolution of its Collocagues and resolved that its concurrence should be entered upon the Minutes -

Mr Vaccassio added that previous to

la constitution de la Société, il existait à Londres une association entre tous les propriétaires d'ornithus, au moyen de laquelle les recettes étaient équilibrées, et évitant ainsi une concurrence, qui eût présence d'intérêts multipliés et isolés eût été fatale. - Mais depuis le jour où la Compagnie a été créée dans ses mains elle a acquis une puissance incontestée qui lui permet toute liberté d'action, et lui a donné le pouvoir de rompre cette association, sans nuire aux intérêts de la Compagnie; qu'il avait envisagé que les ornithes appartenant à la Société ne pourraient pas être ^{de la Compagnie, qu'il a été unanime avec les propriétaires que cette Société} pas la marque, portant en toutes lettres "General Ornithus Company", pour rétablir, le Conseil approuve cette dernière décision.

M. Ancein rend compte d'une exhibition des ornithes de la Compagnie, qui a eu lieu lors de leur voyage à Londres en présence du Lord-Maire. Il donne lecture de divers journaux qui relatent cette exhibition tout à l'avantage de la Compagnie. Il dit qu'il a vu différentes types de ornithes qui figuraient devant l'appartement général, qu'il pense dès lors que la Compagnie devrait choisir celui qui réunissant tous les avantages de la solidité, de l'élégance et du confort, n'augmenterait pas sensiblement le poids de l'ornithus actuel. Afin que ce choix soit de type et fut donné comme modèle à l'entrepreneur chargé de la construction des nouvelles ornithes.

Le Conseil tout entier s'est mis en accord, selon lui il faut tenir les principes qui ont été fixés au public dans le prospectus, il ne suffit pas de construire de nouvelles ornithes, mais il faut que leur construction rectifie tous les abus et les inconvénients qui ont été constatés dans les anciennes ornithes, et il pense qu'il est indispensable que la Compagnie adopte un type déterminant les améliorations nouvelles, la longueur, la largeur, la hauteur, et la pesanté, de la ornithus afin que ce choix fait avec soin servira de modèle aux entrepreneurs pour la construction de toutes les

the constitution of the Company there existed in London an association of all the Carriages & Proprietors by means of which the receipts were appointed and opposition avoided which in the presence of numerous and divided interests would have been fatal - that from the time the Company concentrated in its own hands $\frac{3}{4}$ of the Carriages working in London it acquired an uncontested supremacy which permits it perfect freedom of action and enabled it to work up the Association without injury to the interests of the Company; that he had observed that the Carriages belonging to the Company did not bear the Company's Mark; that it was agreed with the Grants this mark bearing in full length "London General Carriages Company" should be re-established. The Council approved this last resolution.

Mr. Vassall gave an account of an exhibition of the Company's Carriages which had taken place on the occasion of their visit to London before the Lord Mayor. He read extracts from various Newspapers reporting the exhibition greatly to the Company's Credit. He stated he had seen different types of Carriages which appear to combine the requirements for general approval. That he at once thought the Company ought to select that which in combining all the advantages of solidity, elegance and comfort should not sensibly increase the weight of the actual Carriages in order that that selection might serve as a model for the construction of new Carriages.

The entire Council expressed a similar opinion observing that it is requisite to fulfil the promises made to the Public in the Prospectus that it does not suffice to construct new Carriages but their construction should rectify all the abuses and inconveniences pointed out in the old Carriages and it was of opinion that it is indispensable the Company should adopt a firm determining the new improvements the length, width and height and weight of the Carriages in order that that selection carefully made might serve as a model to the contractors for the construction of all

les nouvelles mesures.

Le Conseil appelle la ~~serieuse~~ attention des Vénérables sur cette importante question et notamment sur le poids de la balture, après ~~qui ce char pût être~~ de ménager les forces du cheval, et en conséquence de ces observations, le conseil prend la décision suivante.

Considérant que s'il est nécessaire à la célérité du service que les Ammirahs soient d'une construction aussi légère que possible, il n'est pas moins utile que les voyageurs y soient transportés à l'aide.

Invite M. M. les Vénérables de Londres à se commander de nouvelles Ammirahs qu'autant qu'ils le pourront dans les conditions suivantes, présentées par les Vénérables eux-mêmes comme favorables - hauteur 6 pieds, largeur 5 pieds, longueur 8 pieds 11 pouces à 9 pieds (dimensions des Ammirahs fabriqués par M. Mallet).

Le tout en maintenant autant que possible le poids actuel.

M. Macosin remue son Rapport verbal par quelques considérations.

Le Conseil adopte de sincères remerciements à M. M. Macosin et le Comte de Lautry sur le zèle et le soin qu'il ont mis à accomplir leur mission, il décide que M. M. Macosin et le Comte de Lautry fassent un Rapport écrit qui demeurera aux archives de la Compagnie.

En présence de résultats excellents qu'ont produits les rapports des membres entre eux par suite de la visite qui vient d'être faite à Londres.

Le Conseil décide d'acquiescer que tous les trois mois, deux ou deux Membres du Conseil résident à Paris, se rendront à Londres pour conférer avec leurs collègues et les Vénérables, et que Copie des procès verbaux sera envoyée à Londres immédiatement après approbation.

La séance est levée à 5 heures 1/2 et le procès verbal est signé par le Président et le Secrétaire après lecture.

new Vehicles.

The Council called the serious attention of the Gerants to this important question and especially to the weight of the Vehicles in order that the strength of the horses might be economised and in consequence of these observations the Council passed the following resolution.

Considering that if it be requisite for the despatch of the Service that the Omnibuses should be of as light a construction as possible it is not less desirable that passengers should be conveyed in comfort.

The Council invites the Gerants to order new Omnibuses only in so far as they shall be constructed on the following conditions presented by the Gerants themselves as being suitable - height 6 ft. width 5 ft. length 8 ft. 11 in. to 9 feet (dimensions of Omnibuses built by Mr. Miller).

The whole in maintaining so far as possible the actual weight.

Mr Vaccsin terminated his verbal report with a few considerations.

The Council sincerely thanked Mr. Vaccsin and the Comte de Santary for the zeal and care they had displayed in the accomplishment of their mission. It decided that Mr Vaccsin and the Comte de Santary should make a report in writing which should be placed in the Archives of the Company.

In presence of the excellent results which the relations of the members amongst themselves have produced in consequence of the visit to London which had just been made.

The Council unanimously decided that every three months one or two Members of the Council residing at Paris should go to London to confer with their colleagues the Gerants and that a copy of the minutes shall be sent to London immediately after their arrival.

The meeting broke up at 1/2 past 5 and the minutes after being read were signed by the President and Secretary.

Le Secrétaire donne lecture du procès verbal de la dernière Séance lequel est adopté.

Le Gérant annonce que les pièces de comptabilité lui ont été envoyées de Londres, et les fait lire qu'elles sont très satisfaisantes après avoir reçu un grand complément au Conseil. La situation des fonds est bonne et appropriée, et pour ce qui concerne le conseil de banque et l'état du trafic.

Un Membre demande des explications à la Gérance sur les points suivants: Les compléments sont-ils appliqués aux voitures? Les commandes de ces appareils sont-elles nombreuses? Quel est le nombre de voitures livrées à la Comp^{ie}? Le chiffre de ces voitures est-il atteint? Des ordres ont-ils été donnés pour la construction de 100 voitures nouvelles dont la mise en construction a été annoncée? et on a adopté un type modèle de voitures? et la Gérance est-elle dans l'intention de faire construire ces nouvelles voitures d'après le type modèle et de refuser toute voiture nouvelle qui ne serait pas conforme au modèle, et surtout au poids déterminé avant de livrer les omnibus à des constructeurs? Enfin quelle est la comparaison de poids entre la nouvelle et l'ancienne voiture?

The Secretary read minutes of last meeting which were adopted.

The Secret read letters he had received from London under date the 26th 27th 28th & 29th Nov. 2 & 3 Dec^r. He stated that he had not received any reply to the enquiries addressed to the Secret by a Member of the Council at the last meeting. He read minutes drawn up by Members residing in London at their meetings of the 17th 20th 24th 25th & 27th November. A discussion arose in the form of these minutes.

A Member pointed out the frequency of the meetings and observed that at the meeting of the 21st of November the members present brought under discussion the Agreement entered into between the Secret Messrs. Basi & Foucault and the Banking House of Town 16th. That that Agreement bearing date 26 June 1856 was not signed by the Secret until after they had obtained the written opinion of Mr. Goring the Legal adviser to the Company, that that opinion had now been carried out and that the Legal opinion in question has been sent to London that it is a managerial question appertaining exclusively to the Secret and affecting their personal responsibility. That it is not proper for the Council to discuss matters transacted 5 Months ago and of which moreover they were aware at the time the Secret were about to execute them. The same member criticised the terms of the minutes of the meeting of the 25 November and made apparent the serious inconvenience resulting to the Council from its practical identification with the managerial office.

The entire Council expressed a like opinion

avis conforme et un membre nommé a son approbation les deux propositions suivantes.

Le Conseil esquisse d'avoir à consolider d'après la lecture des pièces verbales que, les séances du 17 au 27 Novembre ont été beaucoup plus fréquentes qu'il n'était utile aux intérêts de la Comp^{te} et il invite M. M. les membres Anglais à se lancer, ainsi qu'il fait le Conseil de Paris à une réunion par semaine, sauf le cas d'extrême urgence et les rappelle au surplus à l'exécution du règlement précédemment adopté.

Le Conseil n'a pas avec moins de regret la mesure prise par M. M. les Membres Anglais relativement aux contrôleurs des différents districts.

Les ordres d'ordonner aux employés de la Compagnie ne peuvent émaner qu'un des Gérants et le conseil engagerait sa responsabilité en donnant lui-même des ordres à des personnes salariées par la Compagnie.

Le Conseil à l'unanimité vote l'adoption de ces deux propositions.

Il le Gérant annonce qu'il plusieurs pièces de comptabilité ont été envoyées de Londres, il demande qu'une commission soit nommée pour examiner les dites pièces et faire ensuite un rapport.

and a member submitted the ^{ten} following resolutions for its approval.

The Council regrets to perceive from the minutes which have just been read that the meetings from the 17th to 24th December were much more frequent than was at all necessary to the interests of the Company and it requests the English Members to restrict themselves in the same manner as the Paris Council to one meeting per week, unless in case of extreme urgency and begs to recall them moreover to the due execution of the regulations previously adopted.

The Council perceives with no less regret the measure adopted by the English members in reference to the Superintendents of the different districts.

The orders to be given to the employees of the Company seem emanate only from the Gerants and the Council would compromise its responsibility in giving orders itself to Salaried Servants of the Company.

The Council unanimously adopted these two resolutions.

The Gerants announced that several Documents of Account had been sent him from London. He made the appointment of a Committee for the examination of said Docs & for Report thereon.

The Council according to the wish of the Gerant nominated M^{rs} Vaccopin and Laniel to examine the accounts and report thereon to a subsequent meeting.

The President requested M. Jeanjean the Accountant of the Company to attend the meeting and communicate to the Council the result of his examination of the accounts kept in London. M. He explained the embarrassment he experienced in dealing with accounts not kept according to French usages and in the terms of Art. 85. of the Statutes. A discussion took place on this important question. Looking to the Copies of Accounts and Balance before them the Council recognised the absolute impossibility of accumulating the system of Accounts established in London within the requirements of the French law and under these circumstances it was resolved, to ask the opinion of Mr Greay, the Company's legal adviser on this important question - and the meeting adjourned accordingly to the 31st instant for the purpose of receiving Mr Greay's opinion.

The Gerant reported to the Council
the results obtained on the occasion of his recent

of meetings previously held for the purpose of
receiving the legal opinions of English Council
(which formed the subject of the Documents forwarded
to Paris) and by referring to the letter of which Mr
Church was the bearer, the Members residing in
London and the three Gerants of the Company had
had a meeting at which Mr Stevens the London
legal adviser of the Company had been
requested to assist; that an earnest
discussion had taken place on the merits of
the Documents forwarded and the situation
of the Company considered in relation to
the existing English laws on limited liability;
that the opinion of the first legal authorities

à été combattre par tous les points par
Mr Stevens, qu'enfin le conseil recevait
prochainement communication du procès
verbal de cette réunion. Le Pérou
ajoute que les comptables tant anglais qu'
français remplissent dignement leur
devoir, que les comptes annuels pourront
être prochainement fournis au conseil et
qu'il se trouve de constater l'aptitude
et le dévouement de M. M. Brillou et
Jeanjean dans ces travaux extraordinaires.

Un Membre demande des
explications sur l'application des compteurs
et l'établissement des correspondances -
Le Pérou répond qu'une telle tâche en-
traîne prochainement l'envoi de comp-
teurs, que quelques uns de ces appareils
sont fabriqués, que leur mode de
construction et d'agencement est très
supérieur à celui adopté en France - qu'un
côté concerne les correspondances elles
se généralisent par presque tous les points
où qu'elles sont favorablement accueillies
par le public Anglais - il ajoute que la
Comp^{te} rend beaucoup de billets d'honneur
ce qui produira une influence heureuse sur
les recettes. Le Pérou termine en

disant que la Comp^{te} des Omnibus a
définitivement pris un intérêt dans la
Société des bateaux à vapeur de la Tamise.

Un membre demande quelle est
l'importance de cet intérêt et si on peut
préciser l'époque à laquelle cette nouvelle
Société sera définitivement constituée.

Le Pérou répond que la Comp^{te}

de 250,000 fr. dans la nouvelle Société et
que la souscription aux actions sera ouverte

The Secant added that the accountants both English and French were worthily fulfilling their duty, that the annual accounts may be shortly submitted to the Council and that he was happy to bear testimony to the zeal and ability of Messrs. Britton and Jeanyean in their important labors -

A member requested explanations relative to the application of indicators and the establishment of Correspondences - The Secant replied that an entire line would shortly be provided with indicators that several of these instruments had been manufactured and that their mode of construction and operation was much superior to that adopted in France - That as regards correspondences they were spreading & nearly every point and were favorably received by the English Public.

He added that the Companies were disposing of a large number of "Contract Tickets" a circumstance that would beneficially affect the receipts (and he ^{thereby} concluded by stating that the Omnibus Company had definitely taken an interest in the Thames Steam Boat -

A member enquired as to the extent of that interest and if it were possible to specify the time when the new Company would be definitely constituted -

The Secant replied that the Omnibus Company had subscribed to the extent of 250000 frs. (£10000) in the new Company, and that the subscription of Shares would be opened in the Month of February -

The meeting opened at 11 O'clock.

The Secretary read Minutes of last Meeting which were adopted.

The Secants read minutes of a meeting held by the portion of the members of the Council residing in London on the 1st January last.

He protested in the most earnest manner against the Draft of the said minutes insofar relates to the proposal to transform the present Company into an English one; and he the more strongly urged this protest inasmuch as he was himself present at the meeting upon which the Minutes now read were based and that the Draft in no way accorded with the discussion which took place on the question of the transformation of the Company or the resolutions that were passed.

Upon this representation the Council observed it would ensue from the communication made by the Secant that on the 15th January at a meeting of the English Members of the Council held in London in his presence the Members to the Number of Three had resolved in the name of the Council, "That it was in the interests of the Shareholders of the Company that it shall be transformed into an English Company."

The Meeting opened at 10 O'clock.

The Secretary read minutes of last meeting which were adopted.

The Serant answered that Mr. Jeanjean had returned from London that he had concluded the work of detail upon the accounts of the Company in London; that it resulted from his examination that he had been enabled to take an exact account of all the receipts and expenditure of the Company; of the Company as also of the occasions thereof; that with such elements it was easy to adapt the English accounts to the customs and exigencies of the French Law, that all the accounts are exact and that the only difference which arose between the two — accounts — originated in the manner of classifying & grouping the items of receipt & expenditure.

A member enquired if the Council might not shortly commence an examination of the inventories and balance sheet for 1856. The Serant replied that he was only waiting, in order to make his report and submit the accounts to the Council, for the inventories of the London House, that these Documents had already been asked for and that he hoped to receive them very shortly.

A member observed that it would perhaps be desirable to appoint a Committee out of the body of the Council, to examine the accounts. This proposal was adopted in principle but its execution was postponed until the presentation of the accounts by the Serants.

Mr Amari in the unanimous opinion of the

Le Gérant rend compte des d'énouches incessantes qu'il fait pour obtenir au parquet la cote des actions des omnibus et qu'il attend avec impatience la décision de la chambre judiciaire pour la communiquer au conseil, il fait connaître l'état des recettes de la présente semaine.

Un membre demande la parole pour un fait important, il dit qu'aux termes de l'article 5 des Statuts M^r M^r Cisi et Foucaud ont apporté à la Société.

Que le fournisseur ait livré à la Compagnie les 600 voitures dont il est ci-dessus question, mais que jusqu'à présent malgré les démarches répétées qui ont été faites, il n'ait pas effectué la promesse de livrer également les 210 voitures omnibus restant bien que le délai de livraison fait depuis longtemps expiré.

desirable to vote upon the nomination of Mr Amari.

The President collected the votes of his Colleagues and proclaimed that Mr Amari was unanimously elected a member of the Council of Supervision of the London General Omnibus Company.

A member enquired if the Inventories and Balance had been forwarded to the London Mail. The Secy replied that those Documents had not yet reached him. The Council expressed a desire that those Statements might be submitted to it without delay and requested the Secy to expedite the matter as much as possible.

The Secy reported the steps he had taken in order to secure the quotation of the Omnibus Shares on the Stock Exchange and that he was impatiently awaiting the decision of the Syndical Chamber in order to communicate it to the Council. He submitted the Socy's Statement of the present week.

A Member asked leave to address the meeting upon an important question. He stated that in the terms of Art. 5 of the Statute Messrs Epsie & Foucaud brought into the Coy

That the abovenamed have delivered to the Company the 600 vehicles above referred to but that hitherto notwithstanding the repeated steps that had been taken, they had not carried out the promise of delivery of the 210 other omnibuses remaining although the period assigned for the delivery had long since expired.

That these delays are the more prejudicial to the Company because the non-execution of the Social Agreement may give rise to a formidable opposition which it is most important to avoid.

Qu'il appartient au conseil de

des Statuts et qu'il est de la plus haute
importance de mettre immédiatement M.

That it was the duty of the Council to see to the strict execution of the Statutes and that it was of the greatest importance that Messrs Ossi and Torcaud should be at once "put in suit" to fulfil without delay the engagement they had formally contracted.

The Council unanimously adopted an opinion in conformity with their remarks and Resolved, That the Gerant should at once place Messrs Ossi & Torcaud "in suit" to deliver the 210 Omnibus Vehicles which they had undertaken to deliver in the terms of Article 5 of the Statutes of the Company so that that delivery may be effected by the 10th March next and that proceedings should be taken against the above named in the event of its non-execution.

The Council asked explanation relative to the application of Indicators. The Gerant replied that he was about to obtain particulars from London which he would communicate as soon as possible.

La séance est ouverte à 10^h.

Le Secrétaire donne lecture du procès verbal de la dernière séance lequel est adopté.

M. Armandis nouveau dans la dernière séance membre du conseil de surveillance de la Compagnie Générale des Annuités de Indes, est présent, il déclare accepter les fonctions qui lui ont été déléguées, et sur l'invitation de M. le Président il prend part aux travaux du Conseil.

Le Président fait connaître toutes les démarches qui ont été faites pour obtenir la cote au profit des Agents de change des actions de la Compagnie, il énumère toutes les objections plus ou moins sérieuses qui lui ont été faites, et rend compte des obstacles qu'il rencontre, il tient d'autant plus à faire connaître des vœux présentés son impression au Conseil qu'il est résolu, malais d'insuccès, à rendre compte de tous ces faits, dans son rapport à l'Assemblée générale des Actionnaires.

Une longue discussion s'engage sur ce point dans laquelle les objections présentées et non résolues faites en a faire, sont très-bien résolvues par le conseil, il décide, que chaque membre s'efforcera de tout son pouvoir pour faire respecter les droits des Actionnaires.

Le Président donne lecture de la lettre qu'il a adressée à M. Picard, l'avis de l'Assemblée pour répondre aux vœux légitimes du conseil exprimés dans la dernière séance les termes de cette lettre avoir été l'approbation unanime, et le conseil ensuite de se tenant à prendre toutes mesures de rigueur qu'il jugera convenables pour combattre et empêcher l'avis de l'Assemblée à remplir les obligations qu'ils ont formellement contractées dans l'acte Social.

La séance est levée à midi et le procès verbal est signé par le Président et le Secrétaire Général après lecture.

The Meeting opened at 10 o'clock.

The Secretary reads Minutes of last Meeting of which were adopted.

Mr Omani nominated at the last meeting a Member of the Council of Supervision of the London General Omnibus Company was present and declared his acceptance of the functions conferred upon him and upon the invitation of the President he took part in the proceedings of the Council.

The Tenant reported the steps he had taken to secure the quotations of the Company's Shares upon the Stock Exchange. He recapitulated the various objections more or less serious with which he had been met and the obstacles he had encountered. He was the more anxious to communicate his impressions to the Council at the present moment because he was determined in case of ultimate failure to mention these facts in his report to the General meeting of Shareholders.

A long discussion ensued on this point in which objections were raised which have occurred or might occur more successfully combated by the Council.

Resolved that every Member should use his best endeavours to secure respect for the rights of the Shareholders.

The Tenant read a letter he had addressed to Messrs Crisp & Forward in compliance with the legitimate desire expressed by the Council at its last meeting.

The terms of that letter met with unanimous approval and the Council renewed its request that the Tenant would adopt such rigorous measures as he might deem desirable to compel Messrs Crisp & Forward to fulfil the obligation they had formally contracted in the deed of the Company.

The meeting broke up at noon and the minutes after being read were signed by the President & Secretary.

The Meeting opened at 10 o'clock.

The Secretary read Minutes of last meeting which were adopted.

The Secant reported the further proceedings he had taken in order to receive the admission of the Shares to the Exchange. He trusted he had answered the objections which had arisen in the minds of the Members of the Judicial Chamber and that at the meeting of the 7th Inst. the Chamber would give its decision. He explained the situation of the Thames Steam Boat Company in its relations with the Omnibus Company, and he proposed to submit to the Council a resolution on this subject immediately upon its being drafted and approved of by his London Colleagues.

As regards the accounts and inventories for the Year just expired he announced that these Documents had reached him a few days back but it had been requisite to translate them and that the Paris accountant was revising and arranging them in order to submit a complete Statement as early as possible. He read a letter from W. Church asking for a Statement for the Year 1856. He declared he was not in a position to reply with that request as the Paris State had scarcely yet been able to take cognizance of the Document forwarded from London.

Le Secrétaire termine en disant
qu'il attend l'établissement des comptes
afin de désigner d'accord avec les collègues
de Londres et le conseil le jour de l'assemblée
générale.

Un membre demande si les
publications des recettes se font chaque
semaine en Angleterre de la même manière
qu'en France.

Le Secrétaire répond que les publications
Anglaises, ne permettent pas aux actionnaires
de se rendre compte comme en France des
produits de l'exploitation et des progrès
que peut faire la Compagnie et il donne
lecture de la publication.

Le conseil constate que les
publications des recettes faites dans les
journaux français permettent autant
qu'il est possible dans un cadre restreint
de se rendre compte de l'exploitation
de la Compagnie. Mais le vu que ces
publications soient faites dans la même
forme dans les journaux anglais et

The meeting opened at 10 o'clock.

The Secretary read minutes of last meeting which were adopted. The Gerant announced that the work of extracting the accounts sent from London was now completed that M^r Jeanjean and Blanc had immediately for London in order to agree definitively upon the Balance Sheet together with his colleagues.

Under the firm conviction of being able very shortly to submit to the Council the whole of the accounts for the Year 1856 he stated that it was desirable to convocate the General Meeting of the Shareholders and he would at once come to an understanding with his colleagues as to the appointment of the day of meeting.

The Council acknowledged this communication unanimously expressing an earnest hope that the meeting might be held within the terms of the Statute, i.e. in the course of the ^{Month}.

A member observed that experience had convinced him of the propriety of effecting modifications in the Statutes. That it would therefore be desirable to convocate the Shareholders for an ordinary and extraordinary general meeting.

The Council reserving to itself the right of considering the modifications which might be brought forward expressed a desire that the convocation of the Shareholders might be effected, in the terms above stated. The Council unanimously

The meeting opened at 10 o'clock.

The Secretary read minutes of last meeting which were adopted.

Mr Cartier reported the result of his recent journey to London he had come to an understanding with his colleagues in establishing the accounts

a l'exercice de 1856, il dit que les lenteurs inévitables en présence d'une première année d'exploitation ont retardé la présentation des comptes; que de plus il a voulu coordonner les diverses habitudes de comptabilité qui existent dans les deux ; qu'il regrette moins, cependant, les retards qu'il vient d'expliquer en présence de l'insuffisance du nombre des actions déposées pour valider l'assemblée; il demande donc au conseil de désigner un ou deux membres pour examiner les comptes généraux de l'exercice 1856 et apurer le compte particulier de M^r Orsi et Soucaud avec la Compagnie.

Le Conseil désigne M^{rs} Vaccopin et G^{te} de Saintin pour examiner les Comptes généraux de l'exercice 1856 et délègue M^r Vaccopin pour apurer, de concert avec les Prénoms, le compte de M^r M. Orsi et Soucaud avec la Compagnie.

Le Gérant annonce que 206 actionnaires ont déposé 19.809 actions représentant 594 voix, que dès lors, l'assemblée générale ne peut avoir lieu au jour indiqué par suite de l'insuffisance du nombre des actions déposées; qu'il est cependant convenable de se rendre à l'assemblée, de faire constater par des actionnaires scrutateurs le nombre d'actions déposées et de fixer, d'accord avec les actionnaires présents, le jour de la seconde réunion.

Le Conseil émet au surcroît M^r Le Président du Conseil s'excuse auprès de Vos collègues de ne pouvoir, par raison de santé, presider l'assemblée générale des actionnaires.

Le Conseil exprime tous ses regrets de la détermination prise par son Honorable Président, et délègue

for the Year 1856. He stated that circumstances inseparable from a first Year working had delayed the presentation of the accounts; that moreover it was necessary to reconcile the customs existing with reference to accounts in the two Countries; the delays he had just explained caused him left regret however on considering the insufficiency of the Number of Shares deposited for the purpose of validating the meeting; he asked the Council therefore to nominate one or two Members to examine the general accounts for the Year 1856 and to audit the particular accounts between Cusi & Foucaud and the Company.

The Meeting nominated M^{rs} Vacossin and de Lantier to examine the general accounts for the Year 1856 and Mr Vacossin to audit together with the Gerant's the account of M^{rs} Cusi & Foucaud with the Company.

The Gerant announced that 204 Shareholders had deposited 19809 Shares representing 394 Votes that consequently the General Meeting cannot take place on the day appointed by reason of the insufficient number of Shares deposited; that it will be desirable nevertheless to repair to the meeting in order to have certified by the scrutineers the number of Shares deposited and to fix with the Shareholders present the day for the second Meeting.

The Council proposed its approval of these views. The President of the Council apologized to his colleagues for his inability to preside at the General Meeting of the Shareholders on account of his health.

The Council proposed its regret at the determination of the President and appointed Mr

M^r Vacoziin pour remplir les fonctions qui sont attribuées par les Statuts au Président du Conseil de Surveillance.

Le Secrétaire donne lecture d'une protestation écrite en avant d'un actionnaire de Londres.

Le Conseil passe à l'ordre du jour, en présence des présidents qui l'ont ordonné.

Le Gérant annonce que le Conseil de Surveillance résidant à Londres a, en présence des comptes arrêtés au 31 Décembre dernier, approuvé le dividende de 6^{fr}. 25% par action proposé par les gérants pour être distribué comme solde de l'exercice 1856.

which he had undertaken in conformity with the resolution of the Council dated 7 Instant. A draft Agreement between the Gerants and Mop Essi and Fournaud in reference to the adjustment of their account was read. A long discussion ensued upon the terms of that Document. Considering the near approach of the General Meeting which leaves too little time for the adjustment and definitive settlement of the account, the Gerant proposed to pass over this draft treaty to the order of the day and to persevere in the year 1857 the adjustment and settlement of Mop Essi and Fournaud account with the Company.

The Gerant added that this adjournment of the question was the more desirable because the Gerants proposed to test the feeling of the Shareholders themselves on this question involved in the Draft Agreement.

The Secretary read minutes of last meeting which were adopted.

The General announced that he had summoned Messrs Gruy, Advocates and Petit Bergens attorney, the legal adviser of the Company to be present today in order to give their opinion upon the modifications which it was proposed to effect in the Statutes. Messrs Gruy & Petit Bergens were introduced accordingly.

The President of the Council in conformity with the terms of Article 20 of the Statutes, submitted for consideration modifications which experience had shown to be desirable.

A long discussion ensued on the entire economy of the Company's Decree and the General's proposed for the present to modify Article 24 & 25 of the Statutes relative to the number of shares indispensable for the legal constitution of the Meeting.

He said that it was desirable that for the future the representation in shares of a quarter of the Capital of the Company should suffice to constitute a General Meeting.

The Council signified that it was not its intention to oppose that modification and it was Resolved that a proposal to this effect should be put to the General Meeting.

The Meeting opened at 10 o'clock

The Secretary read Minutes of last Meeting which were adopted.

The Statement of Traffic and Shares deposited for Dividend were submitted.

The Gerant announced that every fortnight the Statements of the Paris House Expenditure were sent to London, that the General Statement was in course of preparation at the Seat of administration and that he would shortly be in a position to submit to the Council a statement of the whole expenditure during 1st Jan. 1857.

A Member requested explanation on the subject of the Sale of Tickets. He stated that according to the information which had reached him from London, it appeared to him that the reduction of 10% allowed to persons purchasing Tickets at the Compagny office afforded but little advantage to the Public and that it seemed evident to him that the Conductors alone benefited by it, and that it thus became a source of actual loss to the Company.

Considering this result so contrary to the expectations of the Gerant, he proposed abolishing the reduction of 10% from 1st July next whilst continuing the issue of Tickets at par.

The Council adopted this proposal.

The Gerant replied that he would hasten to communicate to his Colleagues the views of the Council.

Le Secrétaire donne lecture des procès-verbaux des Séances du Conseil de Londres, en date des 10. 28 Mai. & 3 juin.

Une discussion s'élève sur l'ensemble de ces procès-verbaux et sur la forme dans laquelle les affaires sont soumises au Conseil de Londres, examinées par lui, et surtout sur la forme des délibérations ou décisions du Conseil.

Tous les Membres présents sont unanimes pour reconnaître que leurs collègues de Londres, s'occupant avec zèle et dévouement des affaires de la Compagnie, et que leurs appréciations et leurs avis sont toujours aussi éclairés que profitables.

Mais ils doivent de nouveau et avec une persistance infatigable rémontrer leurs collègues de Londres contre les dangers aux quels ils s'exposent en raison de la forme dans laquelle ils expriment ces appréciations et ces avis.

Malgré les Membres du Conseil de Londres, toujours imbus des habitudes anglaises et des principes de leur législation nationale, oublient trop que le rôle des Membres du Conseil de Surveillance, dans une société en commandite Française, n'est pas, comme les mots le disent, à surveiller et à conseiller.

La décision appartient aux Gérants; cette décision peut être éclairée préalablement par des avis, surveillée pendant son exécution, contrôlée après; mais cette décision doit être toujours et exclusivement la décision des Gérants.

Quand le Conseil de Surveillance décide lui-même, il admettra, il s'associe à la gestion et devient par conséquent responsable.

Ainsi, dans la séance du 12 Mai dernier le procès verbal constate que des officiers pour débarquement et transport de marchandises, faites en réponse aux avertissements insérés dans le Times ont été fournies par les Vénérables à l'approbation des Membres du Conseil.

Sur les Offres pour le débarquement de M^{re} Roach et fils, de M^r S. Fuller et de M^r Hinckley, ont paru convenables, à condition pour-
tant qu'une légère réduction serait faite dans leurs prises.

Que le Conseil décide qu'on se mettrait immédiatement en rapport avec ces Messieurs à ce sujet.

Dans cette manière de procéder le Conseil de Surveillance de Paris constate avec la plus grande inquiétude l'immixtion de ses Collègues dans les fonctions de la Vénérance à laquelle appartient seule le droit de gérer et par conséquent de décider.

Qu'il en est de même lorsque le Conseil décide également sur les offres de M^{re} E. et L. Macnamara, sur le mémoire des carrossiers, sur celui des cochers dans lequel ils demandant une augmentation de Salaires, et sur le droit de Stationnement à l'embarras du chemin des Fd. St.

Dans l'art 18 des Statuts "les Vénérables paient les marches et portées de toute nature, ils promettent aux délégués, employes, proposés, agents, ils paient toutes attributions et indemnités et tous traitements et salaires".

Donc, les Vénérables ont seuls le droit de décider sur les marches et portées de débarquement et sur l'augmentation des Salaires des cochers.

Dans la séance du 28 Mai et 2 Juin, le Conseil de Londres prend des décisions analogues lorsqu'il s'agit du barage des routes de Drumpton et des réparations proposées par M^r Selwyn et de l'envoi de 65 litres d'esprit de Paris leur réponse a une lettre du Vénérable de Paris, adressée à ses Collèges et par un Curé de Londres.

Thus at the meeting of the 19th May last the Minutes record that Tenders for Lighterage and Cartage of Goods sent in in reply to advertisements inserted in the "Times" were submitted by the Gerants for the consideration of the Members of the Council.

That the Tenders for Lighterage of Messrs Roach & Son of Mr N. Tuller, and Mr Minchley were thought desirable on condition however that a slight reduction be made in the Prices -

That the Council Resolved, That these parties should be at once communicated with upon the subject.

In this line of proceeding the Council of Superintendence in Paris perceived with the greatest anxiety the interference of its Colleagues with the functions of the Gerants to whom alone it is competent to manage and consequently to Resolve.

That the same observations will apply to the Resolutions of the Council upon the Tenders of Messrs Es. W. & Co. Kamara; upon the Memorial of the Coachmakers; upon that of the Drivers requesting an increase of Wages; and on the Vessel Fees at the terminus of the South Eastern Railway.

In the Terms of Art. 18. of the Statutes, the Gerants "shall make Contracts, and Agreements of all kinds; name all delegates, servants and Superintendents wages, fix all allowances, Commissions, remuneration and Salaries"

Therefore the Gerants alone have the right of deciding on Lighterage Contracts and Agreements for the increase of Drivers Wages.

At the Meeting of 28 May and 2 June the Council in London passed similar Resolutions in reference to the Paving of the Brompton Stables and the repairs proposed by Mr Selwyn, and the despatch of 65 Deputations Certificates to Paris in reply to a letter of the Paris Gerant addressed to his colleagues & put to the Co^l of Supⁿ

Au sujet de la réduction du procès verbal de cette Séance du 28 Mai, M^r Aubert exprime le regret de voir qu'une lettre écrite par lui confidentiellement à l'un des Membres du Conseil résidant à Londres ait été annexée au procès verbal.

Que cette lettre pouvait être communiquée verbalement aux honorables Membres du Conseil dans son entier; mais qu'étant une lettre entière à une lettre de même nature; elle devait rester dans les mains de son destinataire.

Le Conseil est d'avis que les lettres et documents officiels doivent seuls être mentionnés au procès verbal, et qu'il ne doit être fait usage des lettres officieuses qu'à titre de renseignements.

Le Conseil décide qu'un extrait de ce procès verbal sera immédiatement envoyé à Londres.

La Séance est levée à midi.

Le Secrétaire donne lecture du procès verbal d'une Séance extraordinaire du Conseil de Surveillance de Londres en date de 2^e juin.

Monsieur Dubois s'engage sur la portée de la proposition des Fédérés et du Conseil de Londres.

M^r Cartelet, Secrétaire, fait observer au Conseil qu'en ce qui concerne les droits et les obligations de la Séance, le mode de procéder proposé lui paraît contraire aux Statuts;

With regard to the draft of the Minutes of that Meeting on 28 May, Mr Cartier expressed his regret at perceiving that a Letter addressed by him in confidence to one of the Members of the Council residing in London had been inserted in the Minutes.

That that Letter might have been communicated verbally to the Members of the Council in its integrity, but that being a friendly reply to a Letter of the same nature, it ought to have remained in the hands of its recipient.

The Council was of opinion that Official Letters and Documents only ought to be mentioned in Minutes and that Official Letters should be used only as channels of information.

The Council Resolved, that an extract of these Minutes should be immediately forwarded to London.

Verant.

The Minutes of the last Meeting were adopted.

The Secretary read Minutes of an Extraordinary Meeting of the Council of Supervision in London under date 2 June.

A discussion ensued on the merits of the proposal of the Verant's Council in London.

Mr Cartier Verant pointed out to the Council that in so far as regards the rights and obligations of the Verant's the mode of proceeding proposed appeared to him contrary to the Statute.

qu'en effet, les délibérations de la Séance devaient être concertées entre les Gérants d'us, conformément à l'art 17 des Statuts; que si les Membres du Conseil de Surveillance de Londres interviennent même officieusement dans les résolutions de la Séance, avant que le Gérant de Paris ait même eu connaissance de leur objet, l'autorité que s'attache naturellement à leur opinion influence nécessairement sur les décisions de la Séance et gêne d'autant plus la liberté.

Qu'il convient donc de donner connaissance au Gérant de Paris, de tout objet en délibération préalablement, de recevoir d'avis, conformément à l'art précité et de soumettre au Conseil, à Londres comme à Paris les propositions ainsi arrêtées par les trois Gérants.

Un Membre ajoute que les propositions faites pour le Conseil de Londres lui paraissent présenter, à l'égard du Conseil de Paris, des inconvénients analogues à ceux qui viennent d'être signalés par M. Cartier; qu'en effet l'intervention des membres du Conseil de Surveillance de Londres, même à titre purement officieux, dans les affaires de la Compagnie avant que les résolutions de la Séance aient été arrêtées, constitue ce que la loi française appelle "l'immixtion", et par conséquent entraîne nécessairement la responsabilité personnelle des membres du Conseil à Londres.

Que la discussion par le Conseil de Paris des propositions ainsi préparées par les deux Gérants et le Conseil de Londres, en Séance extraordinaire, et suivant le mode proposé, constituerait de la part des Membres du Conseil de Paris une acceptation de ce mode et par conséquent pourrait les rendre solidaires des actes conformes à Londres et les soumettre à la même responsabilité.

Ces observations sont développées et confirmées par un autre Membre, et le Conseil à l'unanimité est d'avis.

Que le mode de délibération proposé, dont il reconnaît l'utilité et les

that in point of fact the deliberations of the Gerants should be concerted between the Gerants themselves, pursuant to Art. 1st of the Statutes; that if the Members of the Council of Supervision in London intervene even officiously in the resolutions of the Gerants before the Paris Gerant is even acquainted with their object, the Authority naturally attaching to their opinion will necessarily influence the decisions of the Gerants and fetter their freedom of action.

That it is therefore desirable that previous notice be given to the Paris Gerants of the different subjects for deliberation to receive his opinion conformably to the above Art. & to submit to the Council both in London & Paris the resolutions thus come to by the Three Gerants.

A Member added that the proposal put forward by the London Council appeared to him to present objections with regard to the Paris Council and begins to show which Mr. Carter had indicated; that in fact the intervention of the London Members of the Council, even in a purely officious capacity in the affairs of the Company before the resolutions of the Gerants are passed constitutes what French law terms "l'immixtion" (interferences involving identity) and therefore necessarily involves the personal responsibility of the Members of the London Council.

That the discussion by the Council in Paris of the resolutions thus prepared by the two Gerants and the Council in London in extraordinary Meeting and according to the proposed method would constitute on the part of the Paris Members an acceptance and recognition of that course and might consequently render them jointly liable for the proceedings taken in London & subject them to the same responsibility.

These observations were enlarged upon and supported by another member and the Council were unanimously of opinion, That the mode of deliberation proposed of which it recognises the utility and

avantages pour la bonne direction des affaires,
présentés l'inconvénient grave de me soumettre
à la fois les obligations de la France et les limites
des devoirs du Conseil.

En ce qu'il fait participer directement
les Membres du Conseil aux actes de gestion
avant que ces actes aient été arrêtés par la France.

Que la précaution prise pour assurer
le secret de ces délibérations est une précaution que
les dangers voient, et est reconnue par les Membres
aux mêmes du Conseil de Londres.

Et que la précaution peut devenir
inutile par le fait ou de la production du
régistre à une époque quelconque, ou par le fait
très probable d'une ou plusieurs lettres égarées ou
délibérées à la poste ou dans les bureaux.

Le Conseil de Paris engage donc
fortement ses honorables Collègues de Londres d'en
placer pour apprécier de nouveau leur projet, au
point de vue de la loi française.

Et il propose de concilier les droits du
Conseil de Londres avec les exigences de la loi
en décidant que les résolutions des Français
devront toujours être arrêtées définitivement entre
eux avant d'être communiquées au Conseil
général de Londres, soit de Paris.

Sauf aux Français à prendre les
mesures nécessaires pour ne jamais retarder
l'exécution des affaires, M. Carlier étant
disposé à faire à cet égard tout ce qui aura
été décidé de commun accord.

advantages for good administration presents the
personal objection of disregarding at the same
time the obligations of the *Vérants* and the
limits of the duty of the Council.

In causing the Members of the
Council to participate directly in managerial
acts before those acts have been decided upon by the Council.

That the precaution taken to secure the
secrecy of these deliberations is a proof that
danger exists and is recognised by the London
Members of the Council themselves.

And that that precaution may
prove unavailing either by the production of the
Minute Book at any moment or by the new
possible circumstances of the miscarriage of letters
either abstracted in the Post, or at their Office.

The Council in Paris therefore
strongly urges its Colleagues in London to
reconsider their proposal in its relation
with French Law.

And it proposes to reconcile the
wishes of the London Council with the require-
ments of the Law by deciding that the resolution
of the *Vérants* shall always be definitively

Le Conseil admet cette observation et est d'avis de demander des explications à ses collègues de Londres, sur les motifs de cette contraction de fonds, en leur faisant prévenir tous les inconvénients graves qui pourraient en résulter pour la Compagnie dans le cas d'une catastrophe dont nous ne pouvons pas toujours être exempts les plus solides maisons de banque que leur présence sur les lieux et leur connaissance des hommes et des choses peuvent donner au Conseil de Paris une assurance qu'ils desireraient partager. The Meeting opened at 10 o'clock.
The Secretary read Minutes of last meeting which were adopted.

The Secretary communicated to the Council the number of Shares deposited for Dividend in London and Paris. He read Minutes of a Meeting held in London by the Members of the Council residing there on 15 June. The Council had deemed it necessary in its previous minutes to draw the attention of the Members residing in London to the course pursued by them in their deliberations, a course to which the Council could not become a party.

It observes with pleasure that at the Meeting of 15 June its Honorable Colleagues accepted the observations made on the subject of the Members residing in London.

A Member remarked that the Gerant had offered no pledge for withdrawing the funds from the several banking Houses and concentrating them at the London & County Bank. That between this and the payment of the next dividend the Company will have considerable funds at his disposal. That therefore it would have been perhaps more desirable in order to diminish risk not to concentrate all the disposable funds in a single bank.

The Council admitted the force of this observation and Resolved to ask explanation from its London Colleagues as to the motive of this concentration of funds in urging upon them the serious consequences to the Company in the event of a Catastrophe from which even the best established banking Houses have not been exempt; that their presence on the spot and their knowledge of Men and Things can inspire the Paris Council with a conviction which they would be happy to feel.

The Council likewise requested explanation relative to the lease of a house in Chancery and begged to be informed of its object and and its annual rental, the Gerant

L'absence annuelle, Mr le Vicomte n'ayant pas encore connaissance de ces faits.

M. le Président fit une connaissance
à M. Cliquet qui était absent des du dernier

M. M. les Membres du Conseil de Londres se sont
blâmés les piteurs abordés dans l'encre des procès
verbaux de 17. 18. 23. 24. 25. 26. avril, 3 et 7 mai.

Mr. Bliquet rappelle au Conseil, que les procès
certains dont il a fait mention ont été
l'ancienement approuvés par lui, que de plus,
au moment du paiement du dividende,
les deux fonds remplis de la Compagnie ont
travaillé pour Mr. St. Aimé & c^{ie}. que ainsi, il
a été impossible de faire plus ^{tôt} une copie pour
Londres. Il a prévenu Mr. Church de ces
retards dans sa lettre du 15 Mai, dont il
donne lecture, ainsi que de celle du 5 juin.

Le Conseil reconnaît l'exactitude de ces faits
et passe à l'ordre du jour.

Le Conseil papételle que dans la
séance du 30 Mai, il a demandé des
explications sur la pente des bulles; il prie
ses honorables collègues de se reporter à la
teneur du procès verbal de la séance plus
indiquée et de lui donner leur opinion sur
la proposition qui y est contenue.

La Séance est levée à midi.

Having yet no knowledge of the matter.

The President informed Mr. Clignet who was absent on this occasion of the last Council, that at their Meeting of 28 May last the Members of the Council in London had complained of the delay in the despatches of the Minutes of. 7. 14. 23. 24. 25. 29 April 5th and 9 May. Mr. Clignet reminded the Council that the confirmation of the Minutes in question was long delayed; that moreover at the time of paying the dividend the two sole employees of the Company were engaged at Mr. Wilm's; that it was thus impossible to get a copy made, sooner for London. He had informed Mr. Church of these causes of delay in his letter of 15 May which he proceeded to read as also that of 5 June. The Council received the contents of these matters and revolted to the orders of the day.

The Council proceeded to provide that at its meeting of 30 May it had asked explanations relative to the Sales of Tickets, and begged that its Colleagues would refer to the Minutes of that meeting and give its opinion on the proposal therein contained.

At the repeated request of the President the representatives of Messrs. Gasi and Fournand will shortly start for London in order to regulate their account with the Company.

The Meeting opened at 10 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

Read Minutes of a Meeting held by the Members residing in London on 25 June last.

A Member requested that the account therein referred to might be produced.

The Secretar replied that in consequence of the existence of differences between the Perants and Mof Osi and Fomcaud, he was unable to produce it as desired; he therefore proposed an adjournment of the consideration of this account - as also that of the Budget of the Paris Union's expenditure.

A Member drew attention to the terms in which the Minutes of 25th Uth relate to the account between the Compagnie and the Company was conceived. He submitted (a Proposition) London to impress their London Colleague with the views of the Council relative to the settlement of the account in question. The Proposition was thus framed.

The Minutes of the Meeting held in London on 25 June 1857 reads

"That the Company's Solicitor assisted at the Meeting together with the Perants who submitted this account between the Company and Mof Osi and Fomcaud and the deed proposed to be executed by the two parties.

The Minute proceeds.

"That the Solicitor recommended this deed as the best means of settling the account.
"That the London Council gave no objection

sur les circonstances, mais qu'il doit cependant s'en rapporter à ses collègues de Paris.

Le Conseil, en réponse déclare qu'il pourrait avec ses collègues de Londres passer à l'avance, sans discussion préalable, entre tous les Membres du Conseil réunis, un jugement sur une question aussi grave que celle du règlement du compte avec les approbateurs; le Conseil lui-même de la manière la plus formelle se réserverait par libellé d'appréciation sur une question qui, des tests, d'après les propositions précédentes faites par les Français lui paraîtrait devoir être réglée d'une manière plus convenable par un arbitrage amiable entre les parties.

Le Conseil d'unanimité adopte cette proposition et que s'oppose pas à l'ajournement demandé par les Français sur le compte d'aut s'agit et le budget de la Compagnie.

Le Comité dit qu'après avoir étudié les modes jusqu'à présent employés pour l'achat des grains et des chevaux il croit qu'il y a une amélioration sérieuse à apporter dans cet important service de l'exploitation; que ainsi, il ferait avantageux et même à la halle aux grains, de Londres, un bureau portant le nom de la Compagnie et occupé par un de ses agents; dans lequel les vendeurs de grains fourrages etc vendraient sachant que la Compagnie est toujours achetée leurs produits et fournissant leurs échéances.

Que de cette concurrence libre et loyale et de la multiplicité des débouchés devenus exportés comme spécimen, il résulterait pour la Compagnie une concurrence saine.

Que ce mode est adopté par les grandes administrations et que la Compagnie qui admet le dépôt des fournitures pour les travaux relativement peu importants lorsqu'il s'agit de réparations dans les établissements s'engageant à son devoir si elle n'aurait pas dans la même voie lorsqu'il s'agit du

"under the circumstances, but that they must refer the matter to their Paris Colleagues.

"The Council in reply declare that it would regret to see its London Colleagues (Members) beforehand and without previous discussion amongst the whole of the Members in Council assembled a judgement upon so serious a question as that of the Settlement of the account with the Contractor. The Council passes in the most formal manner to reserve to itself entire freedom of opinion with respect to a question which indeed as it appears to the Council according to the proposals originally made by the Vendor should be resolved in a more equitable manner by ^{peace} arbitration between the parties.

The Council unanimously adopted these resolutions and did not oppose the adjournment requested by the demand of the consideration of the 4th in question to the 6th Budget.

The Grand Jurat that after having studied the system hitherto adopted in London for the purchase of Corn and Wheat, he believed there was room for considerable improvement in this essential department of the Undertaking. That that it could be advantageous to put in the London Corn Market an Office holding the names of the Company and occupied by one of its Agents, who should be of Corn, Provision &c. whilst the Company are constant buyers and furnish their goods and Samples.

That from this free and loyal competition and the number of different species of goods submitted as samples a real economy must be effected such as a monopoly could not give.

That this system is adopted by the great administrative and that the Company which recognizes the deposit of Samples for works which are comparatively of little importance as in the case of Shilling repairs, would be wanting in its duty if it did not adopt the same course, where

chapitres le plus élevé des dépenses, qui sera fixé
le principe de la libre concurrence admis, et
laquelle Compagnie sera entrée dans cette voie
elle devra la suivre pour les achats des chevaux.

Le Conseil, par cette communication
engage une conversation dont le résultat est
des conclusions. La conclusion du Sénat, et est
d'avis que ces questions d'économie soient mises
promptement en discussion.

Une Membre fait la proposition
que tous les quinze jours l'état journalier de
tous les marchés qu'elle que soit leur nature,
soit envoyé par la maison de Londres, à la
Maison de Paris, et état journalier comprendra
le nom de parties contractantes, la nature du
Marché, sa date, sa durée et le prix.

Le Conseil veut un avis favorable
il invite le Sénat, à demander ces documents
à ses collègues de Londres.

Un Membre rappelle au Conseil
que la France a déjà donné des publications
sur l'émission par la Banque des billets de
circulation.

Il demande que elle ait la
proportion des billets dans les paiements des
billets hebdomadaires; et se la France a
acquis un avantage réel dans cette
émission des billets; il prie le Sénat de Paris
de demander à ce sujet, des renseignements

of a meeting which had been held in London
relative to the Saloon Omnibus Company.
He read the Newspaper account regarding the
incident of the Meeting the conclusion of which
demonstrated that the opposition was out of
a very serious character.

He stated that copy of the Journal kept in London
embodying the operations to 4 July had been

in course of preparation at this moment
but that the Paris Accountant had
already observed differences with regard to
which explanations would be required.

Upon the proposal of the

submit his observations verbally.

He stated that in the examination
he had made he was unable to account
satisfactorily for several items, which had
been raised, that as a consequence of the
London practice in matters of accounts it
would appear that the basis upon which
the accounts were established from January
1857, was not in conformity with the

The Secretary read

du proces verbal de la dernière séance lequel est signé

Le Secrétaire expose que lors de son engagement à Londres, il a eu plusieurs conférences avec ses collègues sur toutes les branches de la administration de la Compagnie pour demeurer au courant de tous les faits accomplis ou à accomplir par la Compagnie. A Londres il a été convenu que toutes les semaines il recevrait un rapport détaillé dont il avait donné le specimen; qu'il s'empresse des uns de donner connaissance au conseil des documents qu'il a recueillis des faits qu'il a relevés lors de sa présence à Londres.

Il communique une carte de la ville de Londres sur laquelle sont indiquées en diverses couleurs les districts de la Compagnie; il ajoute que la couleur rouge désigne le district de St. Paul et comprenant 1402 chevaux.

Que la couleur bleue désigne le district de Walworth attaché au dépôt de Bell Lane et comprenant 480 Chevaux.

Que la couleur jaune désigne le district de Brompton sans la Courbailleur de St. Mark et comprenant 1204 Chevaux.

Que la couleur brune désigne le district de Puddington sans la Courbailleur de St. James et comprenant 1290 Chevaux.

Que la couleur orange désigne le district de St. John. Wood sans la Courbailleur de St. John et comprenant 1080 Chevaux.

Que la couleur verte désigne le district de St. Michael sans la Courbailleur de St. Michael et comprenant 810 Chevaux.

Que la collecte des recettes d'Amortissement se fait par les commis de bureaux placés sur divers points de la ville, que les commis font leur travail sous la direction immédiate du bureau d'administration.

Que l'argent est versé tous les matins par les commis collecteurs.

minutes of last meeting which were adopted.

The Librarian related that he had had several conferences with his colleagues on the occasion of his journey to London respecting every branch of the Comptroller's administration that in order that he might be kept duly advised of all the proceedings past or future of the London Agents, it had been arranged that he should receive every week a detailed report according to a form he had handed in and that he would at once communicate to the Council the documents he had received and the facts he had collected during his stay in London.

He submitted a Map of London on which the Districts of the Company were indicated. He added, that

The Red represented Mr Barber's district Hackney comprising 480 Horses.

That,

The Blue represented the Subdistrict of Waltham attached to the Bell Lane Depot and comprising 480 Horses.

Yellow the Bromley District under the Superintendence of Mr Hartley comprising 1200 Horses.

Brown the District of Paddamton under Mr Trevels Superintendence and including 1370 Horses.

Orange the St John's Wood District under Mr Lins, containing 1080 Horses.

Green the Highbury District under the Superintendence of Mr Wilson containing 870 Horses.

That the collection of the Office receipts was effected by Clerks at Offices placed in different parts of the Town, and that the operations of the Clerks were under the immediate direction of the C. C.

That the money is paid in every morning by the collecting clerks to the

Il ajoute de nouvelles détails, puis
consigné dans un rapport pendant la date
du 13 Aout dont il dépose la minute sur
le bureau du Conseil.

Il donne lecture du rapport
hebdomadaire que lui a été adressé au 8 Aout.

Il résulte qu'à cette date il y
avait dans les différents districts 6238
chevaux, que dans la semaine finissant
à 8 Aout, 38 chevaux avaient été achetés,
13 pivaux avaient été vendus et que
21 étaient morts, que la balance des
fonds déposés en banque s'élevait
à £28134, 5, 3. Et qu'enfin au 25 Courant
la compagnie serait représentée à la
halle aux grains pour les achats le 7^{me} jour.

Il est donné lecture du rapport
hebdomadaire au 15 Aout duquel il
résulte que 29 chevaux ont été achetés,
3 pivaux ont été vendus, et que 14 sont
morts et que le total de la cavalerie s'
élève à 6265 chevaux.

Quel 4. Omnibus nouveaux ont
été mis en circulation pour remplacer

à l'Omniibus.

Il donne connaissance du
stock des fourrages en magasin, de la
balance qui se trouve chez les banquiers au
15 Aout pour £27586, 5, et des quantités de
foin et d'avoine distribuées par jour à chaque
cheval dans les divers districts.

Le Général pour tenir l'Im

He added further detail detail contained in a Report under date the 13 Augth the Draft of which he laid on the Council Table.

He read a weekly report which had been addressed to him on 8 August.

It appeared that on that date there was 6255 Horses in the several Districts. That during the week ending 8 August 38 Hares had been bought - 13 live Hares sold and 21 had died. That the balance of the Company's Funds in the hands of the Bankers was £28134.5.5, and finally that on 25 instant the Company would be represented on the Corn Market with a view to the purchase of Provender.

He read weekly report of 15 August from which it appeared that 29 Hares had been purchased 2 Silver ones sold, and 1st had died and that the total stock was 6265 Horses.

That 4 New Comminutes had been put to work to replace old stock and that 4 had had the work raised and received other improvements.

He reported the Stock of Provender in store. The Balance at the Bankers on 15 August £27589.3.0. and the quantity of hay and oats distributed daily to each Horse in the several Districts.

In conclusion the Grant stated that from 1st January 1857 to 15 August Instant the Company had purchased 1311 at a cost of --

de £56.638. et que pour satisfaire à diverses dépenses dont les penchures rendent en compte il a été compromise en compte revenue la somme de £20,000. après-pris.

Le Conseil reçoit avec satisfaction tout les communications qui lui sont faites, témoigné le désir que la plus grande exactitude doive dans l'envir des rapports et est d'avis que ces documents soient déposés aux archives de la Compagnie, pour être à la disposition du Conseil et en préparer un tableau d'ensemble.

Un Membre demande si l'application des compteurs à chevalerie ?

Le Gerant répond que 23 voitures d'ont passées de ces appareils, que leur application rencontre quelque résistance de la part des conducteurs, mais cet effet il donne lecture d'une instruction donnée par la Compagnie à son -ci et conçue dans des termes très énergiques.

Un membre fait observer que les achats des chevaux ont été considérables et que des prix ne sont pas en rapport avec ceux de l'année dernière. que ainsi chaque cheval est revenue cette année à la Compagnie à près de 400 f. tandis que l'année dernière ce prix n'avait atteint que celui de 665 f. qu'il y avait lieu d'espérer qu'avec la cessation de la guerre, les prix devraient diminuer, et que les lins d'achat tenus guent d'un état contraire.

Le Conseil émet un avis conforme, et invite la France à donner tout son attention à cette partie important de l'exploitation le Gerant répond que les faits si graves par le Conseil ont frappé ses collègues et lui et qu'ils donnent lui leur prius à cette importante question.

Un Membre fait remarquer que la distribution journalière de la nourriture des chevaux diffère notablement en quantités dans les différents districts; que ainsi dans le District de Brompton

L36638, and that to meet sundry expenses mentioned in the General account £20000 more or less had been borrowed from the Revenue.

The Council received these communications with satisfaction, expressed a desire that the greatest punctuality might be observed in the despatch of the reports. And Resolved, that the Documents should be deposited in the Archives of the Co^y in order to be at the disposal of the Council with a view to the preparations of a General Table.

A Member enquired if the Indications were being generally applied. The Serant replied that 28 Vehicles are furnished with these Instruments that some resistance to their introduction had been experienced from the conductors and with regard thereto he read an instruction issued by the Company to the latter which was in very energetic terms.

A Member observed that the purchase of Horses were very large and that the prices did not correspond with those of last Year, that for instance each horse costs the Company this Year nearly 400^s whereas last Year the cost was only 165^s. That there was reason to expect that with the termination of the War prices would go down, but that the purchase lists exhibited quite an opposite tendency.

The Council coincided in those views and invited the Serant to give his best attention to this important branch of the working.

The Serant replied that the circumstances referred to by the Council had struck his colleagues as well as himself and that they were bestowing all their care upon this ^{important} question.

A Member pointed out that the daily distribution of Powder to the Horses varied essentially in quantity in the different Districts.

That for instance in the Brompton

10 livres d'avoine font données, par jour à chaque cheval tandis que dans les autres hôpitaux, cette distribution atteint jusqu'à 17 et 18 livres. Il demande quelle est la cause de cette augmentation. Le Secrétaire répond qu'il a proposé d'en référer à ses collègues afin de donner une complète satisfaction au Conseil; le même Membre revenant sur la dépense de la cavalerie, demande de la modération est plus grande cette année que l'année dernière.

Le Secrétaire répond qu'il ne trouve pas dans les papiers qui lui ont été envoyés de renseignements à ce sujet, mais que cette question seules dans les répétitions qu'il se propose de demander à ses collègues.

Le Conseil instruit préoccupé de la manière avec laquelle les écritures sont tenues à l'endroit demande si la Breveture est arrivée.

Le Secrétaire répond que demain le comptable de la maison de l'Inde sera à la disposition du Conseil.

Il est donné lecture du procès-verbal de la dernière séance.

The Meeting opened at 10 o'clock

The Secretary read Minutes of last Meeting which were adopted.

The Verant explained to the Council the motives which determined the Verants on convening the Shareholders in Extraordinary General Meeting in London.

He stated that on this side the English Shareholders regretted that the position of the Company was not communicated to them according to the Customs and Usages prevalent in England; That with all respect for the reports of the French Meetings, they nevertheless desired that in the terms of the Company's Statutes a Meeting should be held in London for the purpose of informing them of the accounts and the position of the undertaking;

That on the other hand the Verants had fully and seriously considered the Scheme of Tramway Conveyance on the American plan from which they had arrived at the conviction, that the new system of working must be productive of the most beneficial results to the London General Omnibus Company;

That in order to accomplish the object they had in view it was indispensable to obtain the authority of the English Parliament to the sanction of a tramway upon the Public Roads for the conveyance of Passengers and Merchandise.

That it was consequently indispensable to consult the Shareholders on the expediency of this new mode of conveyance and to submit for their decision the course to be adopted for effectually

complètement la Compagnie des Omnibus de Londres à la nouvelle exploitation projetée. Que dans ces circonstances la Gerance se suivant les habitudes Anglaises chargée M. Edeman, eminent comptable de Londres, apur faire un rapport sur la situation de la Compagnie et sur la tenue de ses écritures Que de plus, étant des bénéfices que lui accorde l'article 26 des Statuts elle a, d'un ans unanimes, convoquer pour le 20 Octobre courant les actionnaires de la Compagnie en assemblée Générale, à Londres, pour. 1^o recevoir communication de la situation de la dite Compagnie, et statuer sur les propositions qui lui seraient faites pour étendre son exploitation.

Un membre demande si les études relatives aux dépenses de construction de la machine par voie fixe ont été calculés, le Grand répond que toutes ces études ont été faites d'après les bases fournies par l'exploitation qui a lieu à Paris; & qui du reste, il se réserve, en donnant communication au Conseil du rapport de la Gerance de présenter toutes les explications relatives, à ce sujet.

Le Grand annonce en outre que d'accord avec ses collègues et en conformité de l'article 3^o des Statuts; il a fait connaître aux actionnaires qu'il serait fait à partir du 15 Octobre la somme de 5 francs, à titre d'intérêt, sur chaque action et en a compté sur le dividende de l'année 1854.

Le Conseil donne acte à la Gerance de ces déclarations.

Le Secrétaire donne lecture des dernières lettres reçues de Londres en date des 17. 18. 23. 25. 28. Septembre et 3 Octobre, ainsi que des rapports hebdomadaires des 13 et 19 Septembre.

Le Secrétaire donne lecture du procès verbal de la dernière séance lequel est adopté.

Il est donné connaissance de diverses lettres écrites de Londres les 8, 10, et 12 Octobre, du rapport hebdomadaire adressé au Board de Paris le 3 Octobre, d'une circulaire adressée par M. The Meeting opened at 10 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

Read also General Letters from London under Dates 8, 10, and 12 of October; the pretty Report for 3 Instants addressed to the Paris Torant, a circular addressed by St Church to the English Shareholders inviting them to attend the General Meeting, and dated the 5 October, finally a letter addressed by the Secretary of the Company in England to the "Morning Herald" on 13 October answering friendly objections which that Journal had raised with regard to the London General Committee Company.

The Torant announced to the Council that there was cause to fear that the Deposits of Shares effected in London and Paris for the purpose of attending the General Meeting of 20 October will not exceed 35,000 Shares that under such circumstances he doubted if the assembly could be legally constituted. He added that according to the terms of Article 24 of the Statutes it had originally been provided that the assembly should be duly constituted when the Members comprising it should represent the half plus one of the Shares issued. That the Article 24 in question had been modified, and that the Shareholders at their Meeting of 25 April last had decided that every assembly should be valid when the Members

dont elles se composeraient représenteraient le
quart du capital social que quelques capitaux
ont pu se procurer au moment où il n'y avait
en circulation que 150000 actions basées les
50000 autres pour le complément du capital
social ont dans les caisses de la Compagnie;
le quart de 150000 actions, 37500 actions était
futur pour constituer l'assemblée, et sub-
séquemment que le quart à représenter devait
être de 12500 actions, lorsque par la proposition
de la France, les actionnaires ont leur
dernière réunion avaient donné aux Français
le pouvoir d'annuler de 25 à 30000 actions
sur les montant du capital social; un
membre fait observer que ce serait à l'encontre
de l'article 24 des Statuts qui dit que
de prétendre que l'assemblée puisse valablement
délibérer lorsque elle représenterait 37500 ou
même 12500 actions; qu'il est formellement
dit que toute assemblée valable doit représenter
le quart du Capital social, que jusqu'à
ce jour ce capital n'a pas été modifié, que
bien que les actionnaires aient donné pouvoir
d'annuler 25000 ou 30000 actions, il n'en
est pas moins vrai que cette annulation n'a
pas été accomplie et qu'aucun acte légal
n'a consacré la diminution du capital
social que par toutes ces raisons son avis est
que le capital social est toujours représenté
par 200.000 actions et que le quart du capital
social doit comprendre 50.000 actions -

Le Conseil a l'unanimité
émis une opinion conforme et décide de
se réunir le vendredi 16 courant afin de
recueillir le nombre d'actions qui aura été
déposées dans les délais impartis par les
Statuts sociaux.

Le Président dit que tout sera
fait pour le jour indiqué pour la assemblée
bien qu'il soit possible qu'elle ne puisse avoir
lieu et il donne lecture du projet de rapport
que ses collègues et lui font d'aut. L'installation

comprising it should represent a quarter of the Capital of the Company; That some were of opinion that the moment that 150,000 Shares only were in circulation, the 50,000 others forming the Balance of the Company's Capital being in the Company's Hands: The sum of 150,000 Shares pay 37,500 were sufficient to constitute the assembly, and others again, that the Quarter to be represented must be 42,500 Shares, Since upon the proposal of the Vicar the Shareholders at their last Meeting had empowered the Vicar to cancel from 25 to 30,000 Shares out of the sum amount of the Company's Capital. A Member pointed out that it would be evading the terms of Article 22 of the modified Statutes to pretend that the assembly could legally deliberate when representing 37,500 or even 42,500 Shares; that it is formally provided that every valid Meeting must represent a quarter of the Company's Capital, that up to the present time that Capital had not been altered; that although the Shareholders had sanctioned the cancelling of from 25,000 to 30,000 Shares, it is no less true that that cancellation had not taken place, and that no legal deed had legalised the reduction of the Capital; that for these various reasons his opinion was that the Company's Capital was still represented by 200,000 Shares and that the quarter of the Capital must consist of 50,000 Shares.

The Council unanimously expressed a concurred opinion and resolved to meet on Friday 16th Instant in order to receive the Statement of the number of Shares deposited within the period prescribed by the Company's Statutes.

The Vicar said that every thing would be ready for the day appointed for the Meeting although it was possible that it could not take place and he read the draft report which he and his colleagues intended

de présenter aux actionnaires; le Conseil donne
acte de cette lecture et exprime le désir de
prendre connaissance le plus promptement du
rapport dressé par M. Coleman comptable chargé
par la Compagnie sur la situation générale
de l'entreprise.

Le Président répond qu'il espère
qu'elle sera très promptement le compte dont il
est question.

de l'actions déposées s'élevait à 8119, qu'en
admettant que le chiffre des dépôts faits à Londres
vaut de 25000 actions (chiffre maximum
annoncé) le total de ces dépôts tant à Londres
qu'à Paris ne sera que de 33119 actions;

The Meeting opened at 10 o'clock.

The Secretary read Minutes of
last Meeting, which were adopted.

Read Minutes of a Meeting

verbal d'une Séance tenue à Londres
par les Membres du Conseil y présidant, le
3. Novembre, du rapport du Trésor, et du
Conseil de surveillance, impiesues et tels qu'il
ont été présentés aux actionnaires, enfin, du
procès verbal de l'Assemblée Générale du 10^{me}
Auteurs observations n'est émise sur les
termes de ce document;

Le Trésor expose que par suite
des recommandations qui ont été faites à la
Assemblée en Assemblée Générale, relativement
aux dépenses de la Maison de Paris, les trois
Trésors se sont immédiatement réunis au
conseil, et ont posé diverses Economies qui ont
été présentées aux Membres du Conseil résidant
à Londres, dans la séance du 12^{me} Nov^{re}, que ces
Economies portent sur les traitements des
Employés et sur les frais de publicité, que
du surplus ont été réduits de moitié ceux de la séance d'appointement,
ainsi les appointements des Employés, que
la maison de Paris ne comptera plus, des
lois, que trois employés et un gérant de
bureau; que ces Economies devront être
réalisées au 1 Janvier prochain; que sur
les frais de publicité, de notable réductions
ont été faites, qu'enfin pour apprécier con-
venablement l'importance de ces réductions,
il serait utile d'y joindre connaissance du
procès-verbal de la Séance du 12 Novembre
et qu'à la prochaine réunion, il en sera
donné lecture.

M. Clouet présente au Conseil
demande la permission de le retirer puis-
qu'il s'agit d'apprécier la position et la
diminution qui pousse sur les appointements.
Le Secrétaire se retire.

Un Membre du Conseil
rappelle au Trésor, qu'un travail ayant pour
but des réductions sur les dépenses de Paris
avait été arrêté entre les collègues et lui
à l'époque de la réunion de la 1^{re} Assemblée
Générale, et que ce travail avait été com-
munié par lui au Conseil. — Il

held in London by the Members residing there, on 3 November; reports of the Gerants and Council of Supervision printed and in the same form presented to the Shareholders and finally of the Minutes of General Meeting of 10 November. No observation was made on the tenor of these Documents.

The Gerant stated that in deference to the recommendations made to the Gerants by the General Meeting relative to the expenses of the Paris House the three Gerants had at once met in Committee and agreed upon sundry measures of economy which had been submitted to the Members of the Council residing in London at their Meeting of 12 Nov: that these reductions affected the Salaries of the employees, and publicity expenses, that for instance the salary of the Secretary was reduced by one half, that of M. Blanc to be discontinued, that the Paris House would henceforth employ but three hands and an office messenger, that these changes must be realised by 1 January next, that a considerable reduction had been made in the expense of Publicity and that in order rightly to understand the importance of these reductions it would be desirable to consult the Minutes of the sitting of 12 November which should be read at the next Meeting.

M. Clignet who was present at the Council asked permission to withdraw as the matter under consideration was the regulation of his position and the projected reduction of his salary.

The Secretary then withdrew.

A Member of the Council reminded the Gerant that a plan for the reduction of the Paris expenses had been prepared between him and his Colleagues at the time of the first General Meeting and that that plan had been communicated by him to the Council. He

demandes pourquoy les reductions que semblaient
alors arrêtées sont aujourd'hui, faites beaucoup
plus tôt. Il exprime la crainte que les
reductions annoncées ne seraient inefficaces
notamment en ce qui concerne le Blanc, dont
les services ont été et pourr^{ont} être encore
très utiles.

Le V^{er}ant répond que les
économies proposées il y a six mois devaient
porter non seulement sur les dépenses de
Paris, mais aussi sur celles de Londres
par suite d'un travail d'ensemble: que
ce travail commencé n'a été achevé que
depuis peu de temps, et qu'alors il a paru
sage aux V^{er}ants d'en ajourner l'exécution
après la dernière assemblée générale.

Après une discussion à
laquelle prennent part les Membres présents
le Conseil exprime l'opinion que les V^{er}ants
agiraient convenablement en reprenant
de l'égard de la maison de Paris, le
travail qu'ils avaient arrêté au mois d'
Avril dernier.

Un Membre demande au
V^{er}ant de faire connaître avec précision,
le chiffre des dépenses d'exploitation de
semestre scolaire, par comparaison avec les
dépenses du 1^{er} exercice.

Le V^{er}ant répond que les
dépenses totales d'exploitation ont été, dans
ce dernier semestre de 57,91^e par jour et
par voiture au dessus des dépenses de la
première année; ainsi qu'il résulte des
comptes arrêtés le 30 juin.

Le Conseil invite le V^{er}ant
à lui faire connaître, par une note spéciale
en quoi consiste et quelles sont les causes
de cette augmentation.

Un Membre fait remarquer
que de telles augmentations ne devraient
pas être connues seulement après coup, c'est-à-
dire quand le mal est consommé.

enquired why those reductions which they
seemed determined were now carried so much
further. The proposed apprehension that
the reduction now announced would be
found excessive especially in so far as concerned
At Blanc whose services had been and
might yet be of considerable utility.

The Gerant replied that the
Savings proposed five months ago affected not
only the expenses in Paris but also those in
London by means of a general of the Service
that this plan had only recently been
completed and that it then appeared to
the Gerants desirable to defer the
execution of it until after the last
General Meeting.

After a discussion in which
the Members present took part, the Council
expressed an opinion that the Gerants would
do well to revert to the plan they had
agreed upon in April last, so far as
related to the Paris Office.

A Member requested the
Gerant to state the precise amount of
working expenses during the last six
Months and compared with those of the
first Year.

The Gerant replied
that the total working expenses during
the last six Months had been 4,291.
per day per Vehicle in excess of the
expenses of the first Year as appeared
from the accounts to 30 June.

The Council requested
the Gerant to let them know by
a special note the causes and nature
of this increase.

A Member observed
that such increases should not
appear only after being incurred and
when the evil was completed, that
the Gerants should hold in hand

que la Société doit avoir en main des
moyens de contrôler, à tout instant les
dépenses, afin de les maintenir toujours à
leur niveau régulier, que ces moyens de
contrôle doivent se reproduire à Paris par
la correspondance et par l'envoi d'états
périodiques. Il propose le peu que le
Gérant de Paris se mette en mesure de
satisfaire le Conseil, à l'avenir, en lui
fournissant, régulièrement, le mouvement
des affaires de la Compagnie.

Le Conseil adopte cette
proposition, à l'égard des frais de publicité.
Le Gérant annonce que pour débiter aux
vœux de l'Assemblée Générale, ses collègues et
lui ont résolu de publier dorénavant, l'état
des recettes dans un seul journal, chaque
semaine, et de faire imprimer le rapport
pour être distribué aux actionnaires, sans
qu'il soit reproduit par les journaux.

Un Membre exprime des
 Craintes que les résultats de cette mesure,
et se propose d'examiner de nouveau
les mesures d'économie dont il vient d'
être parlé.

le Conseil s'ajourne à lundi prochain.

He expressed a hope that the Paris Council would take steps to satisfy the Council in future by submitting regularly the position of the affairs of the Company.

The Council unanimously adopted this proposition so far as related to the Publicity Expenses. The Secretariat announced that in compliance with the wishes of the General Meeting, his colleagues and he had resolved to publish the Statement of receipts for the future in only one journal weekly and to have the reports printed for distribution to the Shareholders without being reproduced in the Newspapers.

"Wilson Vouchers" referred to in the Minutes of 19 November.

The General replied that he had no other information in the subject than that conveyed by the reading of the Minutes and that he was about to transmit to his colleagues the enquiry of the Council.

A Member remarked that in consequence of the resolution of the General and especially after the nomination of an Agent for the purchase of Powder on behalf of the Company he had thought that that Agent had long since entered upon his duties, but that he now found from the documents which had arrived from London that things were in the same state as before and he regretted to perceive that the job was postponed until the first Month of next Year.

The General replied that the postponement was certainly a matter for regret but that it was rendered necessary by the state of the Debts which are not yet in a condition to render the measure advantageous.

The Council regretted this postponement, and took official notice of the declaration of the General fixing the 1st of January next for the entrance upon office of the Powder Buyer.

A long discussion took place relative to the Contract for Advertisements.

The President as the Organ of the Council stated that the Contract was originally agreed upon ~~was~~ ^{was} onerous to the Company. That this circumstance was so true that the General themselves in their Report to the General Meeting of 25 April last exposed a hope of increasing the profits from this source that he did not therefore understand why this Contract which had been from time to time condemned should be prolonged to 30 June next when 31st of December instant is the date of expiry. He asked if the renewal or prolongation of this Contract was a "fait accompli".

Le Président répond que jusqu'à ce jour
il n'a pas en connaissance de cette proposition;
qu'il doit des lors en conclure qu'il n'y a pas
fait accompli, que quant à lui, son opinion
n'est pas modifiée sur la nature de ce contrat,
et qu'il y a lieu de le renouveler à des conditions
meilleures pour la Compagnie, qu'enfin, il
ne pense pas que ses collègues puissent faire
un acte important, des gardiens sans, au préalable
lui demander son avis. Dans cette position
le Conseil pense qu'il serait utile, dans
les intérêts de la Compagnie de préparer un
calcul de charges relativement aux annuities
et d'admettre le public à s'y opposer.
En conséquence, il invite le Président à s'entendre
avec ses collègues sur ce point, et à lui
soumettre le plan que la Compagnie entend
adopter relativement au contrat d'annuities.

Un Membre demande
pourquoi les appointements de deux chefs de
districts doivent être augmentés, surtout
avec un effet rétroactif; que jusqu'ici il
n'avait vu reproduire que des motifs
d'économie; qu'il ne comprend donc
pas l'élévation des Salaires pour des
fonctions déjà largement rétribuées.

Le Président répond que d'après
l'examen fait par les Comités, de diverses
branches de l'exploitation, il n'avait été
question que de mesures d'économie, telle
que suppression d'emploi et deduction de
Salaires; et que si les appointements de
quelques uns des chefs de districts devaient
être augmentés, ce n'était qu'après la
suppression de divers emplois d'où résultait
une économie notable.

Le Conseil constate avec regret que M. le
Président de Paris n'est pas édifié; comme
il devrait l'être, sur les actes de la
gestion, que c'est seulement par la lecture
des procès verbaux des Séances tenues
à Paris par les Membres qui y

The Gerard replied that to this date he had received no intimation of the prolongation; that he must therefore conclude it was not an accomplished fact; that as for himself, his opinion of the character had not altered and he thought it ought to be renewed on better terms for the Company, finally that he did not think his colleagues would take an important managerial step without previously asking his opinion. Under these circumstances the Council thought it would be desirable and to the interest of the Company to prepare a scale of charges and allow the Public to tender.

Accordingly the Gerard was invited to concert with his colleagues on this subject and to submit to the Council the plan the Gerard should propose to adopt relative to the Adm^r Contract.

A Member asked why the Salaries of two District Superintendents had been increased especially with a retrospective effect; that hitherto he had seen nothing but measures of economy submitted and that he did not therefore understand an increase of salary for services already handsomely remunerated.

The Gerard replied that upon an examination made by the Gerard of the several branches of the work the question had only been one of economy such as the abolition of offices and reduction of salaries, and that if the salaries of certain District Superintendents were increased it was only after the abolition of several appointments where considerable saving resulted.

The Council observed with regret that the Paris Gerard was not properly informed with reference to acts of management, that it merely by reading the Minutes of the Meetings held in London by the Members residing there that

resident, qu'il a connaissance de certaines
résolutions qui paraissent, par leur nature de
fait, accompli, ni permettent pas au Conseil
de Surveillance d'exercer quel droit, vu enfin
toutes les communications devraient être
faites par leérant, qui instruit à l'avance
des tous les actes de la Société qui est indispensable
pourrait éclairer le Conseil et répondre à son
interpellation, sans qu'il soit besoin d'en
référer à Londres, qu'il ne peut admettre que
ce soit seulement, par l'envoi des procès verbaux
succincts et résumés que leérant de Paris et
le Conseil de Surveillance aient connaissance
des faits et actes de la Société.
Il invite, des lors, les instamment, leérant
de Paris à prendre, avec ses collègues, telles
mesures qu'il jugera convenables pour
satisfaire aux justes observations ci-dessus
énoncées.

Un Membre propose de demander
auérant de faire dresser un état des

écoulés sur l'exercice 1854, comparé avec celui
de l'exercice 1856.

he obtained a knowledge of certain Resolutions which offend from their nature as matters of accomplished fact, to not permit of the Council exercising its right. Finally, that all communications ought to be made by the Gerant, who being duly advised of all the acts of the Gerance which is indivisible might enlighten the Council and answer its inquiries without being compelled to refer to London; that it cannot permit that the Paris Gerant and Council should only receive information of acts of management by the transmission of brief and summary Minutes.

The Paris Gerant was therefore requested to make such arrangements with his colleagues as he might think desirable in order to satisfy the just observations above expressed.

A Member proposed to ask the Gerant to have a statement drawn up of the receipts and expences every kind during the six months expired of the Year 1857 as compared with those of the Year 1856.

The Gerant replied that as the Documents requested by the Council were included in the Report presented to the Shareholders on 25 April 1856 and in that which had been read on 10 & November 1857 he would be in a position to communicate this information to the Council at its next Meeting.

The Council adjourned to Friday, December 14.

La Séance est ouverte à 10 heures.

Le Secrétaire donne lecture du Procès Verbal de la dernière Séance lequel est adopté.

Le Gérant dépose sur le bureau le travail qui a été demandé par le Conseil dans la dernière Séance et contenant l'état des recettes et dépenses des six premiers mois de l'exercice 1857, comparé avec la même période de temps sur l'exercice 1856.

Le Conseil se forme de suite en comité pour l'examiner dans tous ses détails, et cet examen provoque diverses observations et interpellations que M. le Président au nom du Conseil, résume en ces termes:

"Après avoir examiné le compte d'exploitation pour le 1^{er} semestre de l'exercice courant, compte qui, par rapport à l'exercice précédent, fait ressortir un excédant de dépenses."

"Après avoir examiné le compte d'exploitation pour le 1^{er} semestre de l'exercice courant, compte qui, par rapport à l'exercice précédent, fait ressortir un excédant de dépenses qui s'élève à 15.84 par journee de marche."

"Le Conseil surpris de trouver une augmentation au lieu d'une diminution dans les frais d'exploitation a résolu de se livrer à des investigations qui lui permettent de juger le mérite de cette aggravation de charges."

The Meeting opened at 10 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

The Gerant placed on the Table the work which the Council had requested him to prepare at the last Meeting containing the Statement of Receipts and Expenses for the first six Months of the Year 1857 as compared with the same period of 1856.

The Council resolved itself forthwith into Committee for the purpose of examining it in all its details, and the examination elicited several observations & remarks which were summed up in the following remarks.

Having examined the account of working for the first six Months of the current Year from which as compared with the preceding Year there appeared an increase of expenditure.

Having examined the account of working for the first six Months of the current Year from which as compared with the preceding Year there appeared an increase of expenditure amounting to 15^s. 8^d. per Vehicle per Day.

The Council surprised to find an increase instead of a decrease in the working expenses. Resolved, To enter upon an investigation, with a view to arriving at a correct estimate of the nature of this increase of expense.

matters which call for explanation the Council is earnestly desirous that a remedy should be at once applied to a system of ^{administration} which is calculated to exercise a very prejudicial effect on the ^{negatives}. The Generals are therefore requested to enlighten the Council on the points about to be enumerated.

1 Division. Working Expenses
including administration and general
expended.

This account exhibits an increase of 1⁵. 9⁰ per Vehicle. As this excess difference must particularly affect the administration properly so called and the superior employes in other words that portion which is least susceptible of variation it is difficult to see upon what grounds it can be justified and the amount increased from 1⁵. 26⁰ to 2⁵. 36⁰ being an excess of more than 100.000⁰ for the Month only. The miscellaneous expenses included in this Division have also increased 1⁰ Centimes. The amount for the preceding Year was only 56 Centimes. This Year it is 63 Centimes.

The Second Division, Shows a Total increase of 1⁵. 35⁰ per Vehicle.

Duty figures here at 28⁰ or more than 28000⁰.

Drivers and Conductors Wages at 21⁰ or more than 21000⁰.

The item of Inspection has increased from 3 Centimes to 50⁰ difference in excess 47 Centimes or the amount sum of 47000⁰ for all 6 Months.

In the Third Division, That of Bedding &c for the maintenance of each Vehicle has cost 12 Centimes more

c'est à dire 3^e 35^e centimes au lieu de 3^e 23^e centimes; augmentation qui fait, en plus de 2.5000^e pour l'exercice entier, et ce la sur une partie du service que ne doit presque pas être susceptible de variations; comme l'entretien des harnais qui à cette même époque en 1835, qu'en 1836.

Si 4^e Division, celle des chevaux et fûrages comprises des observations de plusieurs natures, Le Service des pèlerinages que ce coût en 1836, 14^e centimes par voiture, celle, cette année, 17^e centimes en plus c'est à dire 35 centimes, soit 36000^e par 6 mois, ou 2000^e pour l'exercice entier, somme inadmissible pour les fonctions qu'elle doit attribuer.

La nourriture des chevaux qui présente une diminution de f. 36^e par voiture, se trouve encore à un prix relatif très élevé. La ration qui coûte 2^e 30^e centimes par cheval, en moyenne, ne devrait pas dépasser 2^e 35 centimes plus de l'air de l'année. Les établissements de la Compagnie celui de Hachinay.

L'examen comparatif de la continuation d'au les divers services faits de percevoir une différence considérable entre les uns et les autres, lorsqu'on ne parait les justifier, de 2^e 35^e à 2^e 60^e, il y a 25^e soit 2^e 50^e par voiture.

Ce ci conduit à la somme de travail produits et au nombre de chevaux employés. Quelques districts ont 10 chevaux par voiture, d'autres 10 1/2 ou 10 3/4; ces différences qui, au premier abord, paraissent peu importantes, attirent

that is to say 3⁵. 50 Centimes instead of 3⁵. 28 Centimes, an increase amounting to more than 25000 francs for the entire Year, and that too on a basis of the Service which is far less susceptible of variation like the maintenance of Horses which cost the same in 1857 as in 1856. The 1st Division, That of Horses and Powder effected observations of several kinds.

The Veterinary Service which in 1856 cost 18 Centimes per vehicle cost this Year 1st Centimes more viz, 35 Centimes or 36000 fr 6 months or 72000 francs for the entire Year an amount which is inadmissible considering the functions it is intended to remunerate.

The feeding of Horses which exhibits a reduction of 1st. 26⁵. per Vehicle is still at a comparatively high figure. The ration costing 2⁵. 50⁵. per Horse on an average should not have exceeded 2⁵. 35 Centimes; the rate at one of the Company's principal establishments, that being the one at Haddington.

A comparative examination of the consumption in the several districts shows a considerable difference between them which nothing appears to justify. Between 2⁵. 35⁵. and 2⁵. 60⁵. there are 125 Centimes or 2⁵. 50⁵. per Vehicle.

This leads to the account of work performed and number of Horses employed. Some districts have 10 Horses per Vehicle, others 10¹/₂ and 10³/₄. These differences which at first sight appear unimportant, each nevertheless

cependant, si des chiffres très élevés, par
raison qu'elle se multiplie, par plus
de 200000 journées de travail, elle
exigent des explications détaillées et
une attention soutenue.

Le travail effectif de chaque
district, comparé l'un à l'autre,
offre de son côté des dissimilitudes
qui se comprennent difficilement.

L'un d'ces établissements celui
de Bromham avec une ration de
2^e. 38^e, fait, par jour 17 kilomètres $\frac{1}{2}$.

Un autre, celui de Hackney,
avec une ration à peu près semblable
ne fait que 13 kilomètres $\frac{1}{2}$.

Les autres, avec des rations de
2^e. 50^e et 2^e. 60^e ne font que 15 et 16 $\frac{1}{2}$.

En somme, le travail effectif
général se trouve être de 16 $\frac{1}{2}$
et une légère traction par cheval,
lorsqu'il en s'agit au moins de
20 kilomètres, et lorsqu'il a été
en 1856, de 16 kilomètres $\frac{1}{2}$.

Cette différence en moins de
3 kilomètres d'un service sur l'autre
au prix moyen d'une ration de 2^e. 57,
représente, à peu près, 40 heures par
cheval soit 16 francs par année.

Quant à la dépense des
chevaux, l'observation qu'elle comporte
est celle-ci. Un chiffre est trop
élevé pour des chevaux qui ne font
pas un service intensivement ils
s'usent moins vite et ne doivent
pas être amalis dans le même laps
de temps que ceux dont le travail
journalier est complet.

Après cet exposé des différents
natures des dépenses qui appellent
les explications détaillées de la
Gérance, le Conseil manifeste
le vœu qu'il approuve de tout

very considerable amounts; because they are multiplied by more than 200,000 Omnibuses days. These figures require detailed explanation and close attention.

The effective work of each District, compared one with the other presents differences which are difficult to understand.

One of these establishments that of Brompsh with a ration of 2^d 38^c performs daily 17th Mile.

Another that of Shadney with a similar ration does only 13¹/₂ Mile.

The other with ration of 2^d 50^c & 2^d 60^c only perform 15 & 16 Mile.

In short the general effective services appears to be 16 Miles and a slight fraction per Horse when it should at least be 20 Mile, being in 1856 19 and ¹/₃ Mile.

This decrease difference of 3 Mile between one Year and the other at an Average ratⁿ of ration of 2^d 51^c represents nearly 20^c p. horse or 4th per Vehicle.

As to the depreciation in Horse Stock the observation is suggested in this. The figure is too high for Horses which do not perform a complete service. Openedly they do not wear out, so fast and ought not to die in the same period as those which perform a complete service daily.

After this exposure of the expenses of different kinds which require detailed explanations from the Gerants, the Council expressed the deep regret experienced at

pas voir les recettes s'améliorer comme
on avait tout lieu d'espérer, & comme cela a
été annoncé.

L'adoption du cadran-compteur
était un moyen assuré d'obtenir en partie cette
amélioration.

Un Service moins actif, c'est à dire
moins de papiers en circulation dans la mauvaise
saison que dans la bonne, était aussi un moyen
de maintenir la même recette relative pour
valeur, et il est à regretter que cela ne soit
pas pratique; comme aussi un Service journalier
plus approprié à la circulation de chaque
jour de la semaine y est contribué.

Le Conseil invite la France à

le procès verbal, et l'ajourne au vendredi 11 et

finding that the receipts did not improve as they had every reason to hope and as had been announced.

The adoption of the Indicator was one certain means of partially obtaining that improvement.

A 1st active Service, that, is to say 1st Vehicles in circulation in the bad weather than in the bad season was also a means of maintaining the same comparative receipts per Vehicle and it is to be regretted that that plan was not practised; a daily Service also more suited to each day of the week would have contributed to the same end.

The Council invited the Gerants to reply to the several observations contained in the Minutes & adjourned to Wed. 11th.

The Meeting opened at 11 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

The Grant announced that he had not yet received the reply to the matters noticed in the last Month. & that there was nothing anomalous in the delay as the Grants pushed to make a direct reply to each point raised by the Council, that he hoped to submit the report at the next Meeting.

A Member inquired if the accounts were regularly forwarded by the London House.

The Grant replied that the copy of the Journal was sent Monthly and with as much regularity as possible. He proposed that Mr Jeanjean should be introduced for the purpose of giving any explanation the Council might require. The President accordingly invited the accountant to report on the manner in which the accounts are kept in London.

Mr Jeanjean replied that up to the present, being he had only been able to get the accounts paid to 15 July, although he had received copy of the Journal to October. He stated that the accounts were in some parts unintelligible to him that he had by sending letters requested explanations from London and that he thought Mr. Balthus' presence in Paris would be indispensable if all the necessary explanations could not be given by correspondence.

The Council expressed surprise that,

that certain obscurities which were expounded by the Paris Account in passing various items and policies were already notified at the close of the Year 1856 were now renewed; that, from the conferences which had taken place between the two accountants it had appeared that the London Accountant at length understood that the accounts must be kept according to French practice; that it appeared from the explanations now given by the Paris accountant that the old irregularities were unfortunately still adhered to in London; that they could not longer tolerate such a state of things and that the Paris accountant be invited to detach the accounts sent from London to this State as promptly as possible, to record the imperfections or obscurities therein and make a report thereon to the Council in order that such course may be taken by the Council as they may deem desirable in order to insure the due execution of Art. 54. of the Statutes.

The Meeting opened at 11 o'clock.

The Secretary read Minutes
of last meeting which were adopted.

He read also London Correspondence
under date 1st, 18th and 22 December?
recently reports of 19th Instant and the
entire Minutes of the Meeting held by the
Members residing in London on 10 Dec.

A discussion ensued on the
tenor of those Minutes and before replying
to the explanations furnished by the Traut
in those Minutes relative to the statement
of working expenses. The President, as
the organ of the Council in answer to
 sundry observations of his colleagues explained
in reference to the Tramway undertaking
and the Constitution of the company, that
he believed it his duty to protest most
formally against the manner in which
his London colleagues had interpreted those

passages in the Minutes of 30 Nov^r having reference to the Tramway.

That according to the proposals submitted to the Council by the Com^{rs} both in London and Paris and those submitted to the General Meeting of 10th November, it was clearly and distinctly resolved that the application of Tramways to certain routes in London should be made in the exclusive interest of the then existing London Omnibus Company.

That in order to accomplish that end it was necessary conformably with the English law (which does not permit the incorporation of a charter in the name of a Foreign Company) to constitute a new Company with English Elements. That it was consequently determined that certain persons more or less directly connected with the existing Company should be instructed to apply for the Charter in their own names, but that it was at the same time agreed that these persons should be the representatives of the London Omnibus Company. That it was understood and agreed that the new Company which in point of fact would be constituted with the sanction of the Shareholders of the London Omnibus Company - whether in preliminary Expenses, Engineers and Opposition to the Bill or for the constitution of the Capital, could only be an emanation from the said London Omnibus Company, and could on no account afford a pretext either for an onerous "apport" or "favor" of third parties or the creation of functions out of the sphere of the control and action of the Com^{rs} and the Supervision of the Council of the London Omnibus Company; the said Com^{rs} and Members of Council representing in their double capacity all the Shareholders of the said Company. In short, that the Council in Paris who thought it their duty to express their views in that manner were of opinion that there is a want of due care

in the drafting of the minutes of 10^e Instaut
and that the opinion of the Members in London
is in reality identical with their own.

In reply to the observations made
on the Minutes of 20 Nov^r relative to the
Salaries of the Employers of the Company.

The President said that the Paris
Council who at various times have themselves
had occasion to urge upon the attention of the
London Members the necessity of the Council itself
confining itself to the limits of the duties
conferred upon it by the Statutes and warn the
London Members against interference with the
Management, are too well informed of their
rights and duties to have exceeded them in any
respect.

That the Paris Council gave no occasion for
the observations which the London Members thought
proper to address to them.

That the Paris Council did not interfere
in the Management.

That they did not oppose the measures of
economy proposed by the Deputies.

That they restricted themselves as by right,
butted and in their capacity of simple
Council, to pointing out that it would
perhaps be desirable not to deprive the Paris
Office of the cooperation of persons whose
services are for this reason more valuable
than the supervision exercised by the said
office on the London Administration is made
in the interest of the French Shareholders
who still represent at this time two thirds
of the Shares issued; that moreover the
Paris Council having by this observation
fulfilled what they believed to be their
duty have not insisted and do not further
insist on this point but please the Deputies
as an duty bound the initiative and
responsibility of their acts.

The Council examined in the
most attentive manner the replies made

by the Grants to the Minutes of 1st December.
 A discussion arose on the various points and
 the President, summed up the observations made
 and in the name of the Council said that,
 The explanation given by the Grants in
 answer to the observation of the Council relative
 to the comparative statement of the working
 expenses of the first 6 Months of 1857 compared
 with the Year 1856 show:

As regards administrative expenses.

That of the rent paid in 1857 a sum of	£ 24. 725.
belongs to the Year 1856.	
1 st With the Taxes amounting to	12,500.
2 nd Office & yard expenses less water rates.	9,450.
3 rd Accidents	25,000.
4 th Voluntary Service amounting to	8,350.
<u>Total</u>	<u>£ 83,025.</u>

That such being the case it is greatly to be
 regretted that on closing the accounts of 1856, these
 several accounts were not carried on the Balance
 Sheet to the debit of the undertaking and that
 that sum of 83,025 would not then figure in
 reduction of the profits of 1857 as working expenses
 which do not concern it.

That nevertheless these amounts and
 those paid as expenses of First Establishment as
 stated in the explanatory note of the Grants
 being deducted a comparison of the expenses of
 1857 with those of 1856 still shows a remarkable
 increase in various items and that, on this
 point, the Council would remark that in order
 to have precise terms it will not do to compare
 as in answer to its observations has been done,
 the entire Year 1856 with the half of 1857 —
 taking into calculation the whole expenses of
 each account, but to rectify the expense of
 the two Years on the number of Vehicles in
 circulation and to take the unit as the
 term of comparison.

Proceeding in this manner
 and taking into account the deductions

indicated by the Reports it appears from a comparative statement of the two periods of working that the expenses of the 1st Division comprising administration; Staff &c

were in 1857	£ 4,241.
and in 1856 only	£ 3,08.

showing an increase of $\frac{26}{100}$ per cent for the 103 Vehicles nearly 27000⁰ for the entire term

That no report has been made to the observation relative to the inspection account which cost 3 centimes in 1856 and which in 1857 cost 50 centimes per Vehicle that is to say an increase of $\frac{147}{100}$ per cent.

That this sum of $\frac{147}{100}$ per cent representing more than 42000 on the 103000 vehicles at work during the first six months a nearly 100,000 francs for the entire year is not sufficiently self explanatory to dispense with the necessity for further reference to this enormous outlay, which necessarily calls for reform;

That it is not possible that a sum of 100,000⁰ can be devoted annually to inspection.

That the Veterinary Service, although reduced to the amount 8350⁰ which relates to the year 1856 funds debited, nevertheless with a sum of $\frac{27434}{100}$ for six months only, say about 55000⁰ per annum that such a sum applied to this Service appears to the Council excessive, that the Reports partially explain it by the system they have adopted of putting the *Ames* stock into the hands of the Veterinary Surgeon and holding him responsible for illness.

That this mode of proceeding partakes in some measure of the character of a maintenance contract from which all good administrations should be free, ought and indeed must occasion a more regular sale of worn out horses than would take place if the responsibility of the Veterinary

Surgeon were not involved, that this system moreover causes the outlay of a very considerable sum on Veterinary accounts and makes the cost of renewal of the shoes heavier than it ought to be and is under the ordinary practice of undertakings where the Veterinary Surgeon is simply a medical Agent.

That the sum of £.55 which burdens this Year for the renewal of shoe stock is absurdly too high for horses which perform no regular greater labor than is here required, viz, about 16 Kilometres.

That the contract with Veterinary Surgeons interested in having more but healthier shoes must necessarily result in a less amount of work being exacted from the latter than might be obtained under other conditions, that that must, certainly be the reason for the reduced work of 1857 as compared with that of 1856. were this difference only 1 Kilometre as stated in the reply to the observation.

In short that the Council instead of perceiving as stated that the job actually labours are much less than those of the Year 1856, and finding therein a source of much satisfaction like their colleagues in London are deeply concerned for a system of management which leaves so much room for improvement and which betrays itself in results which unfortunately no possible explanation can modify unless for the future.

That no matter what sums are sought to be deducted from the Year 1857 and in order to be placed to the account of 1856 it no less certainly results from the Statement of working of this Year that the Expenses greatly exceeds that of the first Year and will leave a much smaller net profit -

That a rather more active service and improved layout on better terms would have obviated for a great measure this defect: as also that the addition of the indicator and a service better adapted to the different requirements of the circulation would have been undoubtedly advantageous.

The Council direct the Generous attention of the Grants to the foregoing facts and request them to furnish the most ample explanation.

The Meeting broke up at 1/2 past twelve.

The Meeting opened at 11 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

Read Minutes of a Meeting held in London by the Members residing there on 24th September instant.

A Member inquired if the Grants had determined that the Company should maintain & house its own rolling stock.

The Grant replied that the question was under consideration and that no determination had yet been come to on the subject. He wished previously to obtain the opinion

of the Council on so important a measure.
A Member observed that it was of the utmost importance to the Company that an innovation of this kind which had not always been attended with satisfactory results should be carefully considered under all its aspects. That facts which had recently been brought under notice in connection with a powerful Carriage Company went to condemn the system of general and maintenance by a working Company and on the other hand demonstrated the advantages which may be justly anticipated from the system of maintenance under Contract.

That he therefore apprehended disappointment would be experienced instead of those benefits which the Servants anticipated.

He therefore suggested that the Servants in Relief inform the Council on this question should make a circumstantial report of all the facts which had influenced them in determining to alter the system hitherto adopted by the Company.

The Council approved of these observations and resolved, that they should be forthwith transmitted to London by letter.

A Member enquired if the information demanded in reference to the accounts had been applied.

Mr Jeanjean was introduced.

He stated that the two accountants were agreed and that from the examination he had that day made he was satisfied that henceforth only the accounts had been kept according to French usages.

The Servant communicated

to the Council the Prospectus which
had been drawn up in London for
the Tramway Company.

The Council in referring to
minutes of 24th Dec in which allusion
is made to that Company expressed
surprise at putting the name of the
Paris Canal on the Prospectus amongst
the funders. It remarked that
Mr Cartier, more particularly represented
the interests of the French Shareholders
and that in the name of these
interests it demanded that the
entire Canal without distinction
of name should appear amongst
the funders of the Tramway Company.

January Instant, receipt report of 2 Jan^y
Extract from Minutes of a Meeting held
in London on 28 March, relative to the
Bradfield Agreement and finally report
from Minutes of a Meeting likewise held
in London on 31 December last - The
Council were gratified to receive the
resolution to retain Mr. Blane in the
post he has hitherto filled.

A member inquired if the Senate had received a reply from his colleagues relative to his participation in the Danbury Conspiracy.

The Agents reported that he had received a letter in which ~~he~~ was intimated to him that he appeared amongst the founders of the Company. The Council referring to the records, advised to at the previous meeting was of opinion that the said servant should appear not only amongst the founders of the Railway Company, but likewise amongst the Directors.

The Serant communicated
the General Traffic in the Year
amounting to 148,225.533 (895.130.5.11)
The President observed that

pursuant to the terms of Article
19 of the Statutes there was occasion to
proceed to the nomination of the
President of the Council and Secretary.
He accordingly invited the Members to
vote on those nominations by secret vote.
Mr Vaccin was unanimously named
President of the Council and Mr Dubus
Secretary to the Council for the year 1858.

Mrs Vaccin and Dubus declared
their acceptance of the functions devolving
upon them and the meeting broke up

The Meeting opened at 11 o'clock.
The Minutes of last Meeting
were read and adopted.

The Minutes of Meeting held
in room on 7 Jan'y 1858. were again read.

The President, has the organ
of the unanimous opinion of the Edgrets
addressing the Scrants rescinded that their
Explanations did not meet the just observation
of the Council relative to the striking
Expenses: That those observations had
been suggested by Documents emanating
from the Scrants themselves, viz. the two
reports presented to the General Meeting
of Shareholders of 25 April 1857 and
10th March of the same Year.
That without entering into the details of
working expenditure as had already been
done, but looking only at the total
amount of those Expenses during the
Year 1857 and 1858 the Council
perceives that the expenditure of the
Year 1858 according to the Scrants

account amounted to the sum of
£. 996. 3⁴/₄ £. 80⁰. That adding to that
sum 202. 425⁰. the amount of expenses
paid by the Year 1834, but belonging to
1835, it results that the total expenditure
of that Year was 10100. 002¹ 80⁰.
That, that sum divided by 162000 Annular
days in the Year, showed an expenditure
per Vehicle of 62⁰. 95⁰. instead of 61⁰. 70⁰.
That the expenses of the first 6 months
of the Year 1834 amounted to £. 922. 400⁰. 80⁰
as appeared from the report presented by
the Account on 10th Nov 1834. That deducting
from that amount, the sum of 202. 425⁰. paid
by 1834 but belonging to 1835, it results
that the total expenditure for the first
6 months of 1834 was £. 720. 275⁰. 80⁰.
That that sum should divided by 103600
Annular days for the first 1/2 Year of
1834 makes the amount per Vehicle
£. 69⁰. 5⁰. 06⁰. That the expenses per Vehicle
per day in 1836 being 62. 95⁰, it clearly
results that there is an increase of
1. 01 Centimes per Vehicle per day for
the first 6 months of the Year 1834.
That the Council are at a
loss to account for such an increase,
where it is expected to find only a
decrease of expenditure.

That they therefore request
full explanations on the subject
from the Account.

The Meeting opened at No. 1011th.
The Secretary informed the Council that Mr Cassedy would be prevented from attending the meeting.
The Minutes of last Meeting were read and adopted.

Read weekly report of 16 January; letter from Mr Church of 23rd; conditions of Contract for farming advertisements and minutes of a Meeting held in London by the members residing there, on 14 January 1858.

A Member observed in reference to the weekly report that it would be desirable for the Exants in stating the numbers of houses "dead" should specify the illness to which they had succumbed. He added with regard to the Contract for farming advertisements that it was essential that the Council should be informed as to the amount paid to the Company by the former farmers and the sums which the Exants proposed to ask from the new contractors. Finally whether the administration intended to grant the privilege of advertising under private Contract or by means of competition, and that he thought the latter mode would be most advantageous.

The Council supported these observations and invited the Exants to reply to the question proposed in these remarks.
The draft statement for

Month of January 1838 as compared with January 1837, was submitted - The Council remarked a considerable reduction of receipts although the number of Vehicles in circulation was greater and the state of the weather not more unfavourable than last year - A desire was expressed for an early explanation on this point -

The Secretary read a proposal which had been made to the Comptroller with regard to a break for protecting the tinner called vehicles on roads - The motion proposed was accompanied by a plan - The Council was of opinion that these documents should be forwarded to the Agents in London that they might examine the proposition if it appeared to them worthy of attention and suitable for application -

The Meeting opened at 11 o'clock
The Secretary read Minutes of last Meeting which were adopted -
There also Minutes of 3 meetings held in London by the Vachon residing there under dates 21-23-25 January last. Sundry letters from

At Church of 25 Jan^y 1832. Newark, and
finally of two weekly reports dated 25 & 31 Jan^y.
The President stated that the
observations made by his London Colleagues
relative to the nomination of the President
and Secretary of the Council were just, and
he accordingly proposed to the Council to
Council these nominations and postpone
them to Saturday 13 Feb^y.

This proposal was adopted, and it was
Resolved, That the nomination of the
President and Secretary of the Council of
Superintendence of the London General Anti-
quary should take place on 13 Feb^y.
It was also Resolved, That this
resolution should be immediately
communicated to the Members of
residing in London and that the latter
should be invited to announce their votes
by Letter on the proposed nomination in
order that they might be collected at the
Meeting of 13 Inst^{ant}.

With reference to the Minutes
just read a member observed to the Sec^y that
he could not admit the reasons
urged against the application of indicators.
That they are the most inadmissible ideas
much as in the first application of the
Instruments the Sec^y announced the
good effects derived from them and
adverted to those which might reasonably
be anticipated from a more extended
application that he did not therefore
approve of the proposed abandonment
of the use of the indicators.

The Council expressed an
opinion in conformity with these remarks
and intimated that it would cause
them regret to see the Sec^y renounce
the idea of applying the indicators.
The President expressed to
the Sec^y the painful impression which

The facts embodied in the Minutes of
22 and 29 Jan^y relative to the sickness of
Horses at Whitting had produced on the
Mind of the Council. He stated that the
Council could not understand how a horse
affected with so serious a disease as glanders
should have remained in the Stables
without the Superintendent, a Veterinary
Surgeon perceiving the existence of the evil
that if the Horses were regularly inspected
by the proper persons the administration
would have been spared the necessity of
receiving reports of so deplorable a nature;
that in this point of proceeding there was great
negligence was apparent, rendered more
culpable by the fact that the District
Superintendents are very liberally remunerated
and that the veterinary allowances have
been increased to an extent that has already
given rise to observations on the part of the
Council. He concluded by expressing
his opinion that the Company should
receive from the proper parties adequate
compensation for the loss it had sustained
and he expressed regret at perceiving
that a perfect centralisation of the
District in the Reports did not exist
for if it did exist the Council would
have received the reports of the Veterinary
Surgeons in duplicate and would have
guessed against the evil they impute
to the negligence of the District Super^s.

The Meeting opened at 11 o'clock.
The Secretary read Minutes of last Meeting which were adopted.
The President stated that in consequence of the nomination of President and Secretary of the Council of Supervision of the London General Omnibus Company having been cancelled at the last Meeting, those nominations should be made anew and he accordingly invited his colleagues to vote by Ballot. It resulted from a scrutiny of the Votes that M. Vacoquin and Dubois were named as president the latter as Secretary obtained the majority of suffrages. His letter from Mr. Church dated 12 Feb^y was then read announcing that the Members residing in England had unanimously voted for M. Vacoquin and Dubois. Accordingly the President proclaimed M. Vacoquin and Dubois the one as President and the other as Secretary of the Council of Supervision of the London General Omnibus Company. The Members named declared their acceptance of their functions and the Council of Supervision was constituted for the Year 1838.

Read receipt report under date 6 Feb^y from which it appeared that in the space of one

week 25 horses had died.

The Council deeply impressed by this great mortality & fearing continuance, enquired what measures had been taken to stop an epidemic, involving such serious losses on the Company.

The Genl replied that his Colleagues had directed all their care and consideration to this point; that they had begun by isolating the sick Horses; had applied themselves to the purification of the Stables and had finally called in a Committee of Veterinary Surgeons to consult on the means of stopping the epidemic and providing as far as possible against its return.

A member enquired what was the proportion of Horses affected with glanders of the number represented as dead in the Report of 6 February.

The Genl replied that the statistic had not been prepared and the Council expressed a desire that in future reports, the causes of mortality should be mentioned.

Read Minutes of Meeting held
in London on 15 February.

A Member Inquired if the
Serjeant had received copy of the Report of
the Veterinary Surgeons reported to in
the said Minutes.

The Serjeant replied that he had not
yet received that document but he hoped
to be able to communicate it at the
next Meeting. The Council postponed
the consideration of the subject.

The Statement of the Company's
receipts to this date was submitted and
the Council remarked with regret a
considerable falling off therein.

The Serjeant observed that the weather had
been worse in London and that on some
lines where the traffic was considerable
the Company had been compelled to
reduce the fares $\frac{1}{2}$ and even $\frac{1}{3}$ to
 contend with an opposing opposition.
He added that in the opinion of his
Colleagues this partial opposition was not
of a character to compromise the future
prospects of the Company that it was
the evidence only of a temporary prejudice
and that the nature of the opposition will
the more vividly demonstrate the power
of the Company. He also the efforts it
makes in maintaining the work, in the
destruction of its opponents. In reply to
the first apprehensions of the Council, he
stated that the attention of his Colleagues
was constantly directed to this opposition and
that on an early occasion they would be able
to note its disappearance.

A Member Inquired if the
Balance of the accounts ending 31st
and imbalances had been forwarded by
the London House. The Serjeant replied
that those documents would reach
him shortly.

The Tenant explained that the numbers of the Shares which had received Dividend were at that moment being collated in the register with the deposit notes / vouchers of the Shareholders that he hoped that the errors which had occurred would be easily rectified - He added that, Mr Church, was coming to Paris to verify the same.

The Council declared it
could not ~~in season~~ admit the reasons

could not ~~reason~~ admit the authors

in letter of 15 July, relative to the application of
the Indemnity & believed it to be its duty in the
interest of the Company to maintain the opinions
it has so often expressed in this subject.

The Agents announced that he had
received the copy of the Journal kept in London for
the Month of December & that the other documents
of account would be sent to him as soon as possible.

With regard to the Voluntary Agents
reports, the Council decided that there was a
culpable negligence of the part of the Superintendant
of the Nighting District, in whom the Agents
appeared to have reposed a confidence of which he
was undeserving. They regretted that the
Agents had not in the exercise of the right
which they profess to be made acquainted with
the weekly reports of the Voluntary Agents at
the same time that they were addressed to the
District Superintendents - and they proposed to hope
that in future the Agents by concentrating in
their hands every branch of the administration
and manifesting their authority as every
Sole Agent of the Company, would
suppress abuses and guard against neglect, that
had caused such serious prejudice & the
misconducting, they further proposed an
opinion that the Agents should receive if
necessary to receive compensation for the loss
sustained.

Remit

The Meeting passed at 11 o'clock

The Secretary read Minutes of last Meeting which were adopted.

Read letter from Mr Chubb dated 26 February and extract from Minute of a Meeting held in London by the Members residing there on 23rd Feb. Mr Conway Mr Conway a Member of the Council delegated by his London Colleagues to investigate the inaccuracies disclosed by the Secretary of the London Share in the account of the Paris Share of dividends paid attended. Mr Chubb the Secretary was also present.

A Minutes Enquired if the accounts & inventories of the past Year were completed. Mr Chubb replied that the accounts had been finished within the last few days and that the inventories were completed on the preceding Saturday. That copies of these documents would be sent from London to the Paris Share.

The Council expressed its anxiety to examine as early as possible in order that the Shareholders might be concerned with them for the day for the General Meeting of Shareholders.

Mr Chubb replied that he would be back in Paris on 8th instant and bring with him all the accounts and inventories.

The Council adjourned accordingly until Monday next at 11 o'clock.

A Member asked for information concerning the opposition prevailing in London. Mr Chubb replied that the opposition was in part easily for the London Committee opposing but that it was ruinous for those who carried it on. That the Shareholders had asked themselves if the interests of the Company demanded the purchase of these Committees or if on the contrary it were not preferable to let the promoters ruin themselves in their undertaking thus rendering the impotency of the opposition apparent to all eyes.

He added that the administration was on the

about, and waiting until these Companies should fall into such a state as should produce them from imitating them in their stock being purchased finally. that it was necessary to destroy the opposition in a manner to grow against its return, and this required a present sacrifice on the part of the Sabon General this Company -

The President added a few considerations explaining in his opinion of the course pursued by the Agents under the circumstances -

The Council acknowledged these communications and expressed a desire to receive weekly every information which the Agents can transmit from London relative to these Companies -

The order of the day being exhausted Mr Conway withdrew to proceed with the investigation entrusted to him -

Mr Chant & Britton attended the Meeting.

A Member addressed sundry questions to Mr Church respecting the Sabon Company. Mr Church replied that that body had convened an Extraordinary Meeting of its Shareholders for 9 March instant with a view

to Main, authority to raise loans on belenture -
He added that in his opinion this step indicates
that that Company would shortly be unable to
continue the opposition struggle it had undertaken
with the General Company. The Council expressed
a wish to know as early as possible the resolution
taken at that extraordinary Meeting -
Mr Church undertook that the Council should
be satisfied on that point.

The Secy also announced that all the
accounts of the various houses had been received in
Paris and that the accountants of the two houses
were working together to apportion the accounts -
He requested therefore that the Council should
nominate a Committee to examine the accounts -
The Council are of opinion that it would not be
desirable to nominate the Committee until the
2 accountants had concluded their work.

A Member inquired if the new
system of trading adopted with the three had
produced any beneficial effect, and if the
mortality were less in the districts subject to
the new system.

Mr Church replied that the mode of trading at the
Bell Lane sept had not increased the house
mortality and that the Trants had experienced
the most happy effects from it.

A Member inquired what came
the Secy prepared to adopt, relative to the
advertisements;

The Secy replied that it was his opinion that
the Company should appeal to competition, that
is to say, invite tenders for printing the
advertisements and that in case these tenders
should not appear advantageous the Company
should consider if it were not more advantageous
to take in hand itself the advertising
business at any cost.

Dr. Moulton inquired if the Secretaries had received any information respecting the resolution passed at the Extraordinary General Meeting of the Salem Company on 9th Instant.

The Secretaries replied that the Meeting had adjourned without deciding anything with regard to the desired laws - He stated that in conformity with Art. 26 of the Statutes he agreed with his London Colleagues in proposing to convene the annual General Meeting of the Shareholders of the London General Chamber 6th for 31 March Instant.

He read the advertisement he had drawn up to this effect -

He stated that he was at that moment engaged in the preparation of the Secretaries report, and that he hoped to be able to read it to them shortly.

The Meeting opened at 10 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

The Grant read Minutes of a Meeting held on the 11th Instant, by the Members of the Council residing in London.

A Member remarked with reference to the exhibition of advertisements in the Committees that he feared the views of the Paris Council had not been correctly represented in London; that the Paris Council was always of opinion that before binding itself to any new contract in working the advertisements the Com^{tee} should appeal to competition and that it is only in the absence of any suitable offer that recourse should be had to the plan of working by the Company under the management of Mr Colburn.

The Grant replied that he should the more readily transmit these observations to London to cause they were in complete accordance with his personal views and those of his colleagues.

With reference to the errors which had arisen in the payment of dividends, the Council recognised that the cause lay in the manner in the preparation of the dividend list by the shareholders themselves, and in the error by the imperfect examination of the dividend list by the employees. Together with their London colleagues the Council invited the attention of the Grants to this point, that they might concert measures to prevent the recurrence of such errors.

A Member of the Council expressed his surprise that after what had passed between the Company and Mr Wilson the Grants had been led not only to maintain the latter in his position but to go further to consent to retain it. The Council suggested the Grants to ask for explanation on this subject.

As regards the conversion of the Company into an English one as recommended by the Members of the London Council a Member remarked that the argument used was not so strong as it appeared. It was not in fact correct to say that they had a double

Company cost the Shareholders 80% of share -
So long as there was a great number of Share
holders in France, and the Shares are put out
in the Paris Bourse the chief expense must
necessarily be cashed in.

An English Company would require an Agency
and would not reduce without supplanting
the administration expenses. In order to realize
the future having the English should begin
by buying up all the Shares - More than
1/3 of which are in France and 2/3 in
England - He thought however the question
ought to be submitted to the General Meeting.

A Member added that in that case a
modification of the Statutes would be necessary to
effect by a new Article empowering the General
Meeting to consent to the transformation -
Until that was done, the transformation would
be impossible.

The Council read Minutes of a
Meeting held in London on 16th Inst. at
which the District Superintendents had been
heard in the Subject of the Correspondence.

A Member observed that the
criticisms directed against the Correspondence
System were founded on the want of all
control; that such control has been in the
hands of the Clerks by means of the parchment
or instrument which the Paris insured a certain
and regular control of the whole of the receipts
and at the same time of this correspondence -
He could not understand why the indication
was not yet applied in London and he presumed
that the General Meeting would express a feeling
on this subject, other than that of surprise.

A Member asked the Council
what was that Metropolitan Railway the prospectus
of which was published in the Newspapers -
The Council replied that he had never heard
of the project as of a serious matter
and that at next Meeting he would report
upon it to the Council.

On the motion of a Member the Council resolved to meet on Saturday at 4 o'clock to verify the minutes of Shares deposited to that time for attending the General Meeting.

The Meeting opened at 11 o'clock.

The Secretary read Minutes of last Meeting which were adopted.

The Secretaries announced that the Traffic continued to improve sensibly; that in the St Johns Wood District two opposition Amateurs running from that District to Seven Dridge had been discontinued and that the Company was therefore freed from all opposition in that district. He asked that his colleagues were of opinion that this report was all a prelude to others amongst the opposition that the Company had advertised in the English Newspapers for London for advertising in the Amateurs.

Read weekly report of 25 March.

The Journal received the intelligence of the repatriation of the epidemic at the St Johns, Septth with much satisfaction.

He also declared the number of Shares deposited for attending the General Meeting of 31 March - from the register of deposits it appeared that 20531 Shares had been deposited in Paris and 300 in London making a total of 20831 Shares -

It would therefore that as a fourth of the Capital was not represented by Article 26 of the ^{minutes} Statutes, was resolved to proceed to convene a new meeting in the terms of Article 25.

The Council having examined the list of deposits confirmed the fact that the Meeting of 31 March could not be called and was of opinion that the Parents should make a res. communication.

The Council replied that he had agreed with his colleagues to convene the general Meeting of Shareholders again for 21 April next at 3 o'clock at the Salle Wey. That in order to avoid delay to the Shareholders the Parents had decided not to be present at the meeting of 31 inst. and as now the case had been laid before the Shareholders that the Meeting was postponed to 21 April next. The Council approved of this and considering the time that yet intervened before the day of Meeting resolved till next Meeting the reading of the Parents Report.

The Meeting opened at 11 o'clock

The Secretary read Minutes of last Meeting which were adopted -

Read weekly report of 27 March - advertisement relative to the Saloon Lumber Company - inserted in the Times Newspaper

of 30 March - prospectus published by the
Metropolitan Railway company and Minutes
of a Meeting held in London by the Members
residing there on 18th Nov last

Before proceeding to the consideration
of these Federal documents a Member enquired
if any explanation had been given of the retention
of Mr Wilson in his post of District Superintendent.
The Secant replied that some vague information
had been given on the subject, but that he intended
to speak to his colleagues respecting, at the
interview which the general Meeting could bring
about -

(A Member observed that he was
astonished at Mr Wilson's offer relative to the
rental of the Stables to which reference has
been made in the Minutes which had just been
read -

That it was stated that for the rental of the
Stables the sum of 87^{rs} 50^d per annum was asked
making a total of 5208^{rs} 37^d for 50th for the 6180
Horses which are reported alive in the weekly
report of 29th March. That such a sum was
required, not for the erection of new establishments
but merely for the adaptation of existing Stables
appeared to him excessive. He accordingly
expressed a hope that in the event of Mr Wilson
reading his offer to the Council it might be
submitted for the consideration of the Council
before any action being taken upon it -

The proposal was unanimously approved by
the Members present & the Secant replied
that both he & his colleagues would continue
as before to submit to the Council all
questions which like the offer of Mr Wilson
possess any great importance -

He added that as regarded the Salmon Camp
advertisement he had applied for information
to his colleagues & would communicate it
as received to the Council -

That with regard to the Metropolitan Rail,
Engineering prospectus he believed the Committee

Company had nothing to fear from that
project which had been several years in
existence and the execution of which had
invariably failed through the inability of
the promoters to find their capital. That
the latter had deposited a Bill in
Parliament to obtain authority to abandon
the Scheme on account of their inability

The accounts Inventories and Balance Sheets were
likewise submitted to the Council.

A Member requested explanation
in reference to the account of Sunday Debtors.
He pointed out that the Lane, Steamboat
Company appeared as a Debtor to the
amount of \$500,000.00. He asked what
was the nature of that credit. One of the
Treasurers replied that there was an account
with Mr. Amami on the subject. A discussion
ensued relative to the settlement of that
account. It was resolved to deal with it
by an amicable arbitration.

In reference to the Lane Steamboat Company
a member requested
explanation in reference to a sum of \$150,000.00
and with regard to the Personal debt of Mr. Wise
he asked what security the Company had for
the recovery of these funds.

One of the Treasurers replied that the amount
which appeared in the Sunday Debtors account
was up to this date considered recoverable, & that
in the course of the present Term the Council
would doubt their best case to the recovery of
what was due to the Company and that
it is only in the accounts of the Year
1858 that they will give a qualification
and consequently an application to the
Creditors just referred to.

The President, consulted the
Council who were of opinion that the Sunday
Debtors account should be left in the

The Comte de Lanting requested
 to be heard on a personal matter.
 He stated that at the General Meeting which
 had taken place the previous day, @ Segue

communications had been made relative to the position of one of the Members of Council of Superintendence that although no allusion had been made to any individual Member he nevertheless thought it his duty to take up the charge & give explanations to his Colleagues -

He stated that the only actions in which he was a respondent, was a claim for damages for interest brought before the Court Internal by reason of his former office of Member of the Council of Superintendence of the Société des Franchises (Réunies / Banking Court by.) That two of his Colleagues in that Company were also called before the Court Internal that he had no fear for the consequences of that action the results of which under any circumstances could only affect his future but never his honor. He persisted in resigning his entire career and placed in the President's hands his resignation as a Member of the Council of Superintendence of the London General Omnibus Company -

The Members present assured the Council of the sincerity of their very sincere regret for the incident which had occurred at the Meeting. They expressed their deep sympathy and esteem for him and the conviction they had long felt of his strictly honorable character -

They unanimously declined to accept his resignation as a Member of the Council - The Secretaries who were present at the Meeting united with the Council in the expression of these sentiments.

Mr. Church communicated a letter that had been addressed to him by Mr. Leaking bearing date that day conveying his resignation as a Member of the Council at the request of the English Members -

The Council resolved to consider of the matter for another opportunity at the same time expressing a desire that all

Read Minutes of three
Meetings held in London on 29, 30 April
and 6 May - weekly report of 1st, 8 May
and Quarterly Statement of Provisions
procured during the 1st quarter of 1857/58.

(A Member) observed that
the mortality of Hares was large & exceeded the
average proportion. He made inquiry as
to the cause of that mortality: if it was
attributable to opposition, and what number
of Hares died on the lines where opposition
prevailed - finally, if the mortality consisted
of old or recently bought Hares. He added
that it would be very desirable to know the
number of opposition bunnies actually
running and the names of the lines
on which they ran. In conclusion
he asked why the stock of Hares had been
increased in so remarkable a manner
observing that in 31 December 1857 there
were 600 Hares in the several districts
whereas the number was now 6303, showing
an increase of 206 Hares.

The Grant replied that the Council should be speedily satisfied on these various points, that he should have wished to communicate that day statements explanatory of their position showing the state of the finances and drawn up between his colleagues and him; that he would make that communication at the next Meeting and he begged the Council to be good enough to postpone the subject for answer to the next meeting put by one of its Members. The Council Resolved, to defer the matter until next Meeting.

A Member asked if the accounts of the London Share from 1 January 1853 had been sent to the Paris Share. The Grant replied that they had not been received to this date but that he felt sure that the Copy of the Journal would be forwarded to him in a few days.

[A Member asked if the accounts of the -]

The Council expressed deep regret that notwithstanding the repeated applications that had been made during nearly four Months past these documents had not been forwarded; that so far as they were concerned they should not permit the same errors to occur as produced such lamentable results during the past year since with receipts and a general average receipt in excess of three of 180s only a dividend of 8 per cent could be paid. They stated that if from this time forward an immediate reduction in the expenses be not effected, and if no Inducement be made to increase the productive sources of traffic by remodelling where desirable any service affected by the opposition, the diminution of receipts and general average of receipts during the present year will not permit of a taper of 10s the 5 p cent saved during 1853.

That it is only by @ knowledge of
all the expenses entered in the Journal that
the Council can exercise their functions of
superintendence, and give such advice as they
may deem necessary -

Accordingly the Council requested
that copy of the Journal to that date
might be forwarded immediately by the
London House to the Legal Seat of the
Company and that in future at the end of
each month the statement of expenses of
the past month be communicated to the
Council during the second week of the

Upon the invitation of the
President of the Council M. Blanc attended
the Meeting.

The Secreary announced that
the copy of the Journal of the London House
showing the transactions from 1st January
1854 to 31 April of same year had been
forwarded to the Paris House.

He resumed the discussion
on the Statements which had been drawn
up explanatory of the daily position of the
understanding. He stated that it was
indispensable the Tables relating to the
movement of the House stock should specify
the number of Horses in Hospital and
the cause of their presence there; that with
reference to Horses out, and dead Horses, it
was desirable also to specify the cause of death
or why withdrawn instead of merely recording
the numbers.

With regard to Horses dead he
stated that the Table relative to this Article
of Consumption ought to specify, separately, the
the nature of Hospital Horses so as to permit

of noting the difference in the ratios
tended to sink and found others -

In contemplation of the present
pregning documents, he communicated
@ Table he had had drawn up showing
the traffic operations on each of the lines
worked by the Company and the comparative
receipts of Years 1887 & 1888, with indications
of the lines on which depression prevailed and
the number of the latter vehicles in
circulation on each line -

He stated that such an
expose of the daily position of the undertakings
would render it possible for the Leicance
and the Council of Supervisors to ascertain
at any moment the expense of each line
for fuel - the cause of incapacity in dealing
to distinguish those lines which produce a
proper return from those, the working of
which injuriously affects the general
receipts and to be able thus to apply
the remedy where the evil lies and also
time of its occurrence -

The Council unanimously
approved the draft of the production of
the various documents communicated
by the Leicance. They recalled attention
to the fact that they had for a long
time past continued to ask explanations
in reference to the working as appeared
more particularly from Minutes of
Meetings under date 3rd Mon. 21 & 24 Dec
1887 - 29 January - 13 Feb. & 21 May 1888
They stated that being greatly alarmed at
the reduced receipts and increased
working expenses, they were eager to
know the nature of every expense and
therein exercise its right of supervision
and to advise if necessary modifications
and savings which might be effected.
They therefore urgently desire that the
above mentioned Tables may be regularly

Read also Minutes of Meetings
held in London by their Members residing on

letter from Mr. Stuart of 10 June last -

(A) Member suggested if the
London Society had acknowledged receipt
of forms which had been sent them and if
they had communicated their views on
the subject - The President replied that the
acknowledgements had not yet been received
but he had no doubt that the drafts would
be accepted as his colleagues had already
furnished him with the statements which
he had modified and increased with @
view to the more complete representation of
the Company's position -

The Council desirous of leaving
the reply which the Paris Council may receive
relative to the undertaking, adjourned to
Tuesday 15 June -

(A) Member observed that

at the Meeting held in London on 24 May,
reference submitted London which had
been sent in for Gas Fittings at the reg-
nates. He enquired of the use of Gas
has not objectionable looking to the
health of the trees and he turned
to the Council to call the attention of
their London Colleagues to examination of
this question. The proposal was adopted.

The Council stated that at his
solicitation supported by the Council his
London Council agreed to retain Mr. Lane
for a period of 6 months in his post at
the Paris office; that the period having
now expired his Colleagues backed by the
Members of the Council residing in London
repose from duties of Secretary that Mr.
Lane's connexion should cease - But he
would regret to see this measure put in
execution as it would deprive the Paris
Council and Council of supervision of the
co-ordination of a man who for a long time
worked two lines of business in Paris.

The Council unanimously referred
to Minutes of Meetings under date 20th
and 21st December 1887.

Mr. Member noticed that
opposition still existed; that excepting only
some removals of Articles transferred to
other series its deplorable influence continued
to manifest itself as formerly, that he
feared therefore that the means suggested
to suppress it were not sufficient. He
requested therefore that the Council
should communicate their plan of action
for combatting this evil which though always
on the point of disappearance is still
in existence.

The President stated that nearly
all the Shares had been deposited for
payment of Dividend. He therefore
invited the Council when closing operations

to present to the Council at the Meeting of Friday the 18 June a statement showing the sums received from the London House for dividend payments as also the amount paid to the Shareholders.

The Secant replied that the wish expressed by the Council should be satisfied. The Meeting broke up at 10 O'clock.

A Member moved that the information furnished by the London House in reference to opposition was not sufficient that it was especially necessary to know the number of Minutemen working on such and such lines in opposition to those of the Company and that then only will it be possible to determine the reduction of fares which should be proportioned to the importance of the traffic and its resistance.

The Secant replied that the statement the

despatch of 18th is announced by the same there will afford the fullest information of this important question.

A Member stated that he did not comprehend the reply made in reference to Lick Hires - He calculated that the cost of such a record must be very trifling and that the fruits of the inspection would more than compensate for the attendant expenses - He added that he thought it well to merit the production of the Tables in order to submit there the occasion and proposal to the family -

Mr. Stevens the Company's solicitor in London
and Mr. Church the Secretary were introduced.

The opinion drawn up by
Mr. Henry was again read and a discussion
ensued between Mr. Stevens and the Members
present therein.

It appeared from this examination of the
question that the English Legislature admitted
the legal principles laid down in the document.

Mr. Church claimed that apart
from the question of Law there was the financial
portion of the matter a question of fact which
in his opinion must govern all other points -
He asked what advantages would the slaveholders
derive from this conversion to counterbalance
the serious inconvenience and positive losses
which they would experience in their altered
position - He enumerated in detail these
serious inconveniences and restrictions which he
compared to serious dangers declaring that he
could see no adequate compensating considerations
in this conversion -

The Council unanimously concurred in these views and invited M^r Stevens & Church to make known to the Council what serious advantages the Shareholders might hope to derive in operating to the conversion of the Company.

"The Council of Supervisors having heard the explanation of M^r Church admit in principle that the question of the conversion of the present Company into an English Company of limited liability may be submitted to the Shareholders in Extraordinary General Meeting in Paris, but before doing the day of Meeting they require for the better understanding of the position in which the General Shareholders will stand and with a view to the protection

of their interests that the Draft Statutes of
the New English Company may be submitted

The Meeting opened at 11 o'clock -

The Secretary read Minutes of last Meeting which were adopted -

Read Minutes of Meeting in London of the Members residing there of 15 inst ant - also weekly report of 17 inst ant

Mr Arman requested to be heard -

He stated that at @ Meeting of the Council in London he had pointed out one of the abuses which existed in the administration and which it was his duty to make known -

Mr Sines (Manager of the S. M. Work Society) has an employee well paid who is charged to collect each day the receipts of Anne Bess issued by the Annals of the Company - This employee instead of going personally to the various Offices as he

ought to do receipts at a central point of the Town
and at a fixed hour, the conductors of the
Company's omnibuses who bring him a bag with
sealed containing the receipts of the past day -
It then occurs that the amount of the receipts is
sent to him by the conductors of an omnibus
belonging to the opposition because the hours of
the Company's omnibus does not coincide exactly
with the hour at which the employee attends the
the collection of the receipts with which he is charged.
At last a bag containing £30 has been lost and
found by a Policeman and brought to the
office of the Company -

That in the face of these facts he
asked the Council to cause the immediate
ceasing of an irregularity so prejudicial to the
moral and material interests of the Company.
That descending from the Council room the
even in the office Mr Lince who had on several
been censured and who knowing the truth of the
facts advanced by Mr Lincian addressed him in
a manner most improper at the feet of the
Company.

Mr Lincian adds that in his capacity of
Member of the Council of Supervisors it was not in
accordance with his dignity to reply to the remarks
addressed to him and as he was anxious to make
the Council a party to the conduct which has been
manifested towards him by one employee of the
Company in the office of the Company in presence
of the Council and without any honorable
reparation being demanded by them or offered
by Mr Lince.

The Council heard with regret the
recital of the facts stated by one of its members
and decide unanimously that explanations
shall be demanded from the tenants of these
facts.

The President, again of the Council
said that in the Minutes of several of the
Meetings held in Paris various facts have been
brought out to the Council as well as their

Colleagues in London and no reply has been
made although requested -

He asked then Mr Annan what is the true
position of the opposition and if the means
taken to combat it are efficacious -

Mr Annan replied that the opposition
is as formidable as ever and that the means
employed to combat it are not only insufficient
but also very prejudicial to the interests of the
Sheep Company - Thus as the Company has
5 Comminutors of the Company are engaged to
impede the progress of the opposition that it
follows from this proposition that the
Comminutors pursuing anything the sympathy of
the public is continually full while the
Comminutors of the Company run almost empty
and this all notwithstanding unless determined
the strong and necessitates purchases of mares
out of all proportion - in short the system
employed by the Company to combat the
opposition causes it to lose a very considerable
sum every week

A Member said that several times
the Comminutor has testified its astonishment in
finding each week that the Service had bought
Horses in very considerable quantities, as also
that the Stock of Horses which on 31 Dec 1837
was 6097 horses to wit 600 Comminutors;
today 6400 to wit 607 Comminutors; that is
an increase of 233 Horses after allowing 40
Horses for the 7 additional Comminutors -
that admitting these 233 Horses bought at
the average price of 400 francs each there
results an outlay of a sum of 16300 francs
which ought to reduce a much better used
destination, and further it was necessary to
provide food for these 233 Horses which
increased the general expenses and diminished
by so much the profits of the future, he added
that the only reply which had been made so
that the season was come for making
purchases and he concluded in asking the

opinion of Mr Annan on the subject -

Mr Annan replied that although the season for making purchases is come, he believed nevertheless that these purchases are much too considerable, and out of all proportion to the wants of the Service -

A Member enquired if Messrs Macdonald & Milling alone are charged with the purchases -

Mr Annan replied that the greater part of the Horses are bought by the District Agents who have full power to receive - to destroy - and to purchase Horses without reference to any one.

The Council received this communication with great astonishment - they said they could not understand how the responsibility was left to the free will of the District Superintendents. The purchase and removal of Horses, that tolerating such an irregularity is to sanction in the heart of the legal Council, so many irresponsible agents as there are Districts, that there follows a decentralisation of the Service which opens, if it does not annihilate the omnipotence of the Council and must necessarily bring irregularities which attack profoundly the very life of the Company -

That already the Council, when the epidemic raged in the Galle has in the Minutes of the meeting of 26 July last condemned this decentralising system that the Council would concentrate for the future in its own hands, all the branches of the administration - that it cannot with regret that its advice has not been listened to and that there is yet room to put an end to such a disorganisation as it was far from prospecting to be so complete.

A Member enquired if the construction of the Omnibuses by the Company would be advantageous and if the old carriages made with third parties were still in course of existence -

Mr Annan replied that, he believed the Co.
were interested in constructing their own vessels
and in maintaining the structures which it has
made cut which there are badly executed,
and in support of this he said that one of the
structures charged with repairing an anchor
belonging to the ~~company~~ has on his own
authority cut to the opposite an anchor
belonging to the company which run in the
streets of London bearing inside and out
the inscription "London General Anchor
Company" - and having the plate of the
proprietor of the anchor under repair -

That this fact, of great importance
might make the public believe that the Co.
of Anchors, and had no inconsistent
administration -

A Member asked for information
in reference to the conduct of the financial
affairs of the company - He said that it is a
rapid examination which he had made
of the accounts he thought he had observed
that several of the employees, had cash
accounts in their names, he asked if
that division of accounts had any utility -

Mr Annan replied that charged with
the examination of London of the accounts
of the company he had in effect found
that there were several cash accounts, that this
mode of procedure appeared to him to be
subject to great irregularity that it would
be better pass in few exceptions and make
as a temporary measure, to concentrate
all the operations in one cash account
and above all to make all the payments
in the name of the company and not
in the name of such a one employee -

A Member inquired if the
administration had prepared the table
of charges in order to arrive at the point
of disbursements -

Mr Annan replied that it has

"fait accompli", that is to say, that advertisements have been given to the last family, acted on the same conditions as before - He added that this fact greatly shocked the members residing in London who thought to find a proposition laid before them and not a Contract concluded -

The Council unanimously approved its abstention on this subject - It recalled the terms of its minutes of 9 March last & remembered that the Agreements for the advertisements had not been communicated to them before its conclusion, though they personally approved their desire to that effect -

In ~~reference~~ of these revelations the Council thinks that the Paris Council should go to London to confer with its colleagues and receive categorical explanations on all the allegations contained in these minutes -

The President replied that the opinion of the Council is in conformity with his own and that in a few days he could get out for London -

The Secretary read Minutes of last Meeting which were adopted -
He also read minutes of Meeting held in London by the Members residing there on 22 and

26 July, also a letter not signed relating
some complaints against the management
of Mr. Butler - ~~Editorial Superintendent~~

The Council without attributing more
importance than an anonymous letter deserves
is of opinion however that the Council of Paris
on his journey to London should communicate
it to his colleagues.

It proceeded to the superficial
reading of the Statutes of the new projected
Company - various points were picked up
and the Council said that he would ask
various explanations in London on this
in order to submit to the Council a
complete work.

He also read minutes of
Meeting held in London by the Members
residing there on 29 July and 5 Aug.

The Council said that when in London he
had found that the gravity of the facts
reported to the Council by one of its members
and committed to the Minutes of the
4 August.

The Council hopes that in case of the

conversion of the Company should take place
the Director of the new proposed Company
will put right the irregularities which have
been pointed out and he adds that if that
conversion is not decided by the shareholders
he insists and will insist with all his power
in the Gerance to put the actual adminis-
tration in a situation normal and in
conformity with the interests of the Shareholders.

Heclerant replied that his colleagues
and himself were of the same view.

Heclerant exposed all the legal
measures by which the conversion can take
place - he submitted the draft of the Statutes
sent from London and submitted the list
of new Directors.

The Council reserving to themselves
the most attentive examination of all
these documents asked explanations on the
financial and administrative position
of the new Directors - it said that the
interests of the French Shareholders were not
sufficiently represented in the new Direction
and it added that to amply the situation
& to give to the new Company the prestige &
strength it required, it thought that the
values of the securities formed were not
sufficient - it asked Council by way of
information what would be the expense
of the conversion of the Company.

The Council adjourned to receive
the reply of the Gerant to 25 August.

The Meeting broke up at twelve

L'assemblée est ouverte à 11 heures.

Le Secrétaire donne lecture du procès verbal de la dernière séance, lequel est adopté.

Il est également donné lecture de trois procès verbaux de séances tenues à Londres par les membres y résidant, en date 21, 28 et 29 Janvier dernier, de diverses lettres de M. Church, des 1 et 2 février, et enfin de deux rapports hebdomadaires en date 22 et 29 Janvier.

M. le Président dit que les observations faites par ses Collèges de Londres relativement à la nomination du Président et du Secrétaire du Conseil, sont justes, qu'en conséquence il propose au Conseil d'annuler ces nominations et de les reporter au Samedi 13 février.

Cette proposition est adoptée, il est décidé que le 13 février il sera procédé à la nomination du Président et du Secrétaire du Conseil de Surveillance de la C. G. U. des Amis de Londres. Il est également décidé qu'il sera immédiatement après communiqué de cette aux membres résidant à Londres, et que ceux-ci devront faire connaître par lettre leurs vœux sur les nominations afin qu'ils puissent être recueillis dans la séance du 13 février.

En ce qui concerne la lecture des procès verbaux tenus d'être donnée lecture, un membre fait observer à l'Assemblée que les raisons qu'on lui a données contre l'application de ces procès verbaux, qu'elles sont d'autant plus inadmissibles qu'elles

le conseil général, le conseil
la Séance voit faire du cadran compteur.

Le conseil émet un avis conforme et dési-
reux la Séance renoncer à l'application du compteur.

M. le Président exprime à la Séance l'impression pénible
qui ont causée au Conseil les faits consignés aux procès verbaux
des 28 et 29 Janvier, et relatifs à la maladie des chevaux de
Highbury : il dit que le Conseil ne comprend pas qu'un cheval
meurt d'une maladie aussi grave que la morve, soit demeuré
dans les écuries sans que le manager ou le vétérinaire se soit
aperçu de l'existence d'un mal ; que si l'inspection des chevaux
était faite avec régularité par qui de droit, l'administration
n'aurait pas à enregistrer des faits aussi déplorable ; qu'il
y a donc, dans cette manière d'agir une négligence d'autant
plus coupable que les chefs de districts sont largement rémunérés
et que le service vétérinaire a été augmenté dans des proportions
considérables qui ont déjà motivé les observations du Conseil ;
il termine en disant qu'il est d'avis que la Compagnie obtienne
de droit une réparation suffisante pour le dommage qui lui
a été causé, et il exprime le regret de constater que la centralisation
n'existe pas complètement des districts à la Séance, car, si elle
existait la Séance ait reçu, par duplicata, le rapport des
chefs de districts et elle aurait pu en mal qu'elle impute à la
négligence du chef de district.

La Séance est levée à midi et demi.

question, lui faire un rapport circonstancié sur tous les faits qui se
déterminent à changer le système suivi jusqu'à ce jour par le Conseil.
Le Conseil approuve les observations et décide qu'elles seront
transmises par lettre immédiatement à Londres.

M. Jeanjean est introduit, il dit que les deux comptes
sont d'accord, et que d'après le décomptement auquel il s'est
livré jusqu'à ce jour, il a constaté que depuis le 4 juillet, les
cristaux étaient tenus d'après les habitudes françaises.

Leérant communiqué au Conseil le prospectus qui a été

Le Conseil tout en se référant au procès verbal du 24 décembre
sur ce qui a été dit sur cette Compagnie, s'étant de ne pas voir
le nom du Comte de Paris figurer sur le prospectus parmi les
fondateurs, il dit que M. Carlier représente plus spécialement
les intérêts des actionnaires français, et qu'en nom de ces
intérêts, il demande que toute la Société, sans distinction de
noms, figure parmi les fondateurs de la Compagnie des chemins
