929. The Chairman submitted the following cablegram received from Messrs. Speyer & Co., of New York dated February 11th 1908 regarding the 5% Profit Sharing Secured Notes:-

Before discussing length proposed new securities again, desire pointing out to Speyer Brothers and Board, we think that as Underground Company system only just completed and just begins showing earning capacity, time has not arrived making permanent drastic re-organisation, therefore definitely splitting seems premature besides

accentuating failure publicly. While there is a chance still earnings other circumstances might enable less drastic plan later. We should prefer, besides issuing necessary Prior Lien Bonds, increasing 5% Underground Notes by \$500,000. = and extending whole of 1/2 millions Notes issue as 6% Income Bonds for say 15 years with voting power, assuring Noteholders at least 2% till January 1st 1912. Board surely can state expectation continuing after this date at least these payments. This much simpler and possibly save stamping other expenses by appropriate stamping existing Notes.

Resolved that a reply be made to the said cable = gram as follows:-

Your yesterday's wire submitted Board to-day but unanimous opinion, with which Speyer Brothers agree, entirely against the new suggestion. Scheme as previously agreed by Speyer & Co. has been adopted. Board and will be considered by Committee at their Meeting to-morrow. Tubes can be only controlled through vote on shares held by Underground Company. Speyer Brothers do not propose in return purchase so small amount Bonds asking for special rights control.

Referring to Minute No. 911, the Committee presented to the Board a plan regarding the 5% Profit Sharing Secured Notes of this Company, and the Chairman stated that an Advisory Committee consisting of Messrs. Edwin Waterhouse (Chairman), J. Spencer Phillips, Marlborough K. Fryer, Thomas Skinner, John Skroyd, and Lynden L. Macassey, had been appointed to confer with the Board and Messrs. Speyer regarding the plan.

Resolved that the plan as now presented be forwarded to the Advisory Committee, a further report to be made to this Board at a subsequent date.
