London United Tramways, Scheme of reorganization
[reorganisation] & reconstruction
Referring to Minute No 2397 of the 6th March 1919 approving so
far as this Company is concerned, the Scheme of Arrangement
between the London United Tramways Ltd and the Preference
Shareholders Mortgage Debenture Stockholders and Second and
Third Debenture Stock Holders that an Order of the Court had

2418 London Electric Railway and City and South London Railway
Bills in Parliament Session 1919

Referring to Minute No 2375 of 5th February 1919, that the London Electric Railway and City & South London Railway Companies had deposited Bills in Parliament, and that these two Bills were each approved at Wharncliffe Meetings of the Metropolitan District, London Electric, City & South London and Central London Railway Companies held on 6th May 1919.

That representatives of Insurance Companies who were already large Holders of London Electric Railway 4% Debenture Stock had raised objections to the financial clauses of the London Electric Railway Bill, respecting the proposed 6% Debenture Stock Capital powers ranking *pari passu* with the existing 4% Debenture Stock. As a result of prolonged interviews it had been agreed to alter the clauses in the Bill so that the proposed 6% Debenture issue would rank behind the present 4% Debenture Stock, but further issues of 4% Debenture Stock would in no way be prejudiced.

In regard to the City & South London Railway Bill, a block had been placed against this Bill by a London Member of Parliament, and it was ascertained that the Railways Clerks Association had arranged for this step to be taken with a view to the Bookings Clerks on the Tube Railways being permitted to join the Companies Superannuation Fund. A discussion had taken place with the Secretary of the Association, and arrangements had been made for the block on the Bill to be withdrawn, the Companies giving an undertaking that male Booking Clerks on reaching the age of 18 should be allowed to enter the Fund.

2419 London County Council Tramways and Improvements Bill
That the Standing Orders Committee of the Houses of Parliament would not approve this Bill and the same had been thrown out. The London County Council might, however, endeavour to arrange for the Bill to proceed, Standing Orders being dispensed with.

That arising out of the Press agitation in regard to overcrowding in connection with passenger transport in London, a Select Committee of Members of Parliament had been appointed to investigate the subject of London traffic.
It was proposed that certain officers of the Companies should give evidence before the Committee.

2421 Use of Government lorries for passenger conveyance
That with a view to relieving the congestion caused by the overcrowding in the London General Omnibus Company's

vehicles, arrangement had been made to take over from the Government a number of lorries. These vehicles would be filled with seats of a total capacity of 27 passengers per vehicle, and placed on the London Streets under the same conditions of service as applied to the Omnibuses.

No definite arrangements had yet been made but the lorries would probably be hired on a rental basis.

A few omnibuses were also being obtained and these would probably be acquired on a purchase basis.

That there were at 30th April 2200 paid cases on the T. O. T. Mutual Aid Books as against 5,000 in October 1919.
