Escalator update for King's Cross St. Pancras

WORK to replace three escalators at King's Cross St. Pancras between the Northern line and eastbound Piccadilly line platforms is continuing.

As the station remains busy while the work carries on, particularly around the Northern line platforms, customers are advised to use alternative routes, such as interchanging between the Northern and

Victoria lines at Euston, or at Moorgate station between the Northern and Circle, Hammersmith & City and Metropolitan lines.

By replacing all three escalators at the same time, the disruption to customers at the station will be reduced from 60 weeks to 36 weeks. Work started at the end of October last year and is scheduled to finish in early July.
